

Start Up Loan Program Subsidy Recapture Statement and Tennessen Warning

COVER PAGE

INSTRUCTIONS

Preparing the Form:Rehab

- 1. Fill in the maximum recapture amount (6.25% of the 1st mortgage note amount) at the bottom of page 1.
- 2. Use the <u>interactive map</u> to determine if a property is in a targeted or non-targeted area.
- 3. If the property is located in a targeted area, check the Targeted Area box on page 3.

Executing the Form:

1. Review for completeness for date and signature on page 3.

This cover page is for instructional purposes only. Do not include cover page in the loan package.

[Program] Loan Program Subsidy Recapture Statement and Tennessen Warning

PART 1: SUBSIDY RECAPTURE

Instructions: Borrower(s) must review the Subsidy Recapture Statement at time of Start Up application. At closing, Borrower(s) must sign the completed form.

Because you are receiving a mortgage loan from the proceeds of a tax-exempt bond, you are receiving the benefit of a lower interest rate than is customarily charged on other mortgage loans. If you sell or otherwise dispose of your home during the next nine years, this benefit may be "recaptured." The recapture is accomplished by an increase in your federal income tax for the year in which you sell your home. The recapture only applies, however, if you sell your home at a gain and if your household income increases above specified levels.

You may wish to consult a tax advisor or the local office of the Internal Revenue Service at the time you sell your home to determine the amount, if any, of the recapture tax.

Notice to Mortgagor of Maximum Recapture Tax and of Method to Compute Recapture Tax on Sale of Home

INTRODUCTION

General: When you sell your home you may have to pay a recapture tax. The recapture tax may also apply if you dispose of your home in some other way. Any references in this notice to the "sale" of your home also include other ways of disposing of your home. For instance, you may owe the recapture tax if you give your home to a relative.

Exceptions: In the following situations, no recapture tax is due and you do not need to do the calculations:

- You dispose of your home later than nine years after you close your mortgage loan;
- Your home is disposed of as a result of your death;
- You transfer your home either to your spouse or to your former spouse incident to divorce and you have no gain or loss included in your income under section 1041 of the Internal Revenue Code; or
- You dispose of your home at a loss.

MAXIMUM RECAPTURE TAX

The maximum recapture tax that you may be required to pay as an addition to your

federal income tax is \$ Recapture amount (note amount x 6.25 %)

This amount is 6.25% of the highest principal amount of your first mortgage loan and is your federally subsidized amount with respect to that loan. If you also received a Deferred Payment Loan or a Deferred Payment Loan Plus, the maximum recapture tax will increase by 6.25% of the note amount for that loan if Minnesota Housing also financed that loan with the proceeds of tax-exempt bonds.

Contact Minnesota Housing to determine if your Deferred Payment Loan or Deferred Payment Loan Plus was financed with tax-exempt bonds.

ACTUAL RECAPTURE TAX

The actual recapture tax, if any, can only be determined when you sell your home, and is the lesser of (1) 50% of your gain on the sale of your home, regardless of whether you have to include that gain in your income for federal income tax purposes, or (2) your Recapture Amount determined by multiplying the following three numbers:

- Dollar amount noted above. Maximum Recapture Tax.
- The holding period percentage as listed in Column 1 in the applicable Table.
- The income percentage, as described below.

INCOME PERCENTAGE

You calculate the household income percentage as follows:

- (i) Subtract the applicable household adjusted qualifying income in the taxable year in which you sell your home, as listed in Column 2 in the applicable Table, from your modified adjusted household gross income in the taxable year in which you sell your home.
 - Your modified household adjusted gross income means your household adjusted gross income shown on your federal income tax return for the taxable year in which you sell your home, with the following two adjustments: (a) your household adjusted gross income must be increased by the amount of any interest that you receive or accrue in the taxable year from tax-exempt bonds that is excluded from your household gross income (under section 103 of the Internal Revenue Code); and (b) your household adjusted gross income must be decreased by the amount of any gain included in your household gross income by reason of the sale of your home.
- (ii) If the amount calculated in (i) above is zero or less you owe no recapture tax and do not need to make any more calculations. If it is \$5,000 or more, your income percentage is 100%. If it is greater than zero but less than \$5,000, it must be divided by \$5,000. This fraction, expressed as a percentage, represents your income percentage. For example, if the fraction is \$1,000/\$5,000, your income percentage is 20%.

LIMITATIONS AND SPECIAL RULES ON RECAPTURE TAX

- If you give away your home (other than to your spouse or ex-spouse incident to divorce), you must determine your actual recapture tax as if you had sold your home for its fair market value.
- If your home is destroyed by fire, storm, flood or other casualty, there generally is no recapture tax if you replace the home for use as your principal residence on its original site within 2 years after the end of the tax year when the destruction happened.
- In general, except as provided in future regulations, if two or more persons own a home and are jointly liable for the subsidized mortgage loan, the actual recapture tax is determined separately for them based on their interests in the home.

START_MRB_Subsidy_Recapture_and_Tennessen_Warning_MCP

- If you repay your loan in full during the nine year recapture period and you sell your home during this period, your holding period percentage may be reduced under the special rule in section 143(m)(4)(C)(ii) of the Internal Revenue Code.
- Other special rules may apply in particular circumstances. You may wish to consult with a tax advisor
 or the local office of the Internal Revenue Service when you sell or otherwise dispose of your home
 to determine the amount, if any, of your actual recapture tax. See section 143(m) of the Internal
 Revenue Code generally.

TARGETED AREAS

Pursuant to applicable federal law, targeted areas have been established for the Program. Targeted areas consist of certain census tracts in the State in which 70% of the families have an annual income of 80% or less of the statewide median income or areas determined by the State and approved by the Secretary of the Treasury of the United States and the Secretary of the United States Department of Housing and Urban Development to be areas of chronic economic distress (the "Targeted Areas").

| The location of the home is NOT in a Targeted Area unless this box | vic chackad: | |

PART 2: COMBINED TENNESSEN WARNING AND PRIVACY ACT NOTICE HOMEBUYER PROGRAMS

You have applied for one or more of the following Minnesota Housing Finance Agency programs:

- A mortgage loan
- A downpayment or closing cost assistance loan

Private data requested in your application is legally required to determine if you qualify to participate in the above programs.

Financial information, such as credit reports, financial statements and net worth calculations, are classified as private data on individuals by Minnesota Statutes Section 462A.065. All other data about you are classified as private data on individuals by Minnesota Statutes Section 13.462, except for your name, address, and amount of assistance you apply for or receive. You are not required to provide private data information, but if you refuse to provide it, we will be unable to determine your eligibility for these programs and approve your application(s). The information will be shared with Minnesota Housing Finance Agency's staff, its loan servicers and contractors whose jobs require them to see it, and Minnesota Housing Finance Agency's successors. Where access to the data is authorized by state statute or federal law, it may be made available to others as so authorized.

Your Social Security Number (SSN) is classified as private data by Minnesota Statutes Section 13.355, but if you do not provide your SSN for the purposes described below, we will not approve your application.

- Your mortgage lender may require you to provide your SSN so that it can comply with regulations
 that require it to report to you and the Internal Revenue Service the amount of mortgage interest
 payments you make.
- If you apply for downpayment or closing cost assistance, providing your SSN to Minnesota Housing Finance Agency is required by Title 42 of the United States Code, Section 405(c)(2)(C)(i), which permits the state to require your social security number to establish your identity for purposes of administering tax laws of the state; and, Minnesota Statutes Sections 270A.01 to 270A.12 (the Revenue Recapture Act), which enables the state to collect delinquent debts owed to it by capturing tax refunds and other payments that you may otherwise be entitled. Section 270A.04, subdivisions 3 and 4, require debtor's social security number for this purpose. Minnesota Housing Finance Agency may share your SSN with the Commissioner of the Minnesota Department of Revenue and the Minnesota Attorney General for the purposes of debt collection under the Revenue Recapture Act.
- Providing your SSN for the purposes of verifying your income and credit is voluntary. However, if
 adequate verification of your income and credit cannot be determined without your SSN, we may be
 unable to determine your eligibility.
