Getting Started
Loan lock availability: unavailable before 10 a.m. on the first business day of the quarter.

Silverlight
Silverlight is a “plug-in” for Internet Explorer and is required to use the Loan Commitment System. A best practice is to clear your Silverlight cache once a day before registering your loan in the Commitment System. Use the following steps to complete this process:

1. Click on the Start menu of your Windows Desktop and use the search function to locate the Silverlight program (shown in both screenshots):

   ![Microsoft Office 2007 Silverlight Program](image1)
   ![Microsoft Office 2010 Silverlight Program](image2)

2. The Microsoft Silverlight Configuration Window will appear. Click on Application Storage tab.
3. Click on Delete all then click OK.
4. A confirmation box will appear, asking if you would like to remove storage for all Web sites. Click Yes.

5. Launch the Minnesota Housing Loan Commitment System.
6. Click Yes for “Do you want to increase available storage?”

![Image of Microsoft Silverlight dialog box asking if you want to increase available storage. The dialog box includes the following text:

**Do you want to increase available storage?**
