

2020

PROGRAM ASSESSMENT REPORT

*This document is available in alternative
formats by emailing mn.housing@state.mn.us.*

2020 BY THE NUMBERS

Everyone wants a safe, stable home they can afford in a community of their choice, but this is not the reality for many Minnesotans. Since 2000, housing costs have outpaced income growth, and more people are struggling to find and maintain housing. Prior to the COVID-19 pandemic, Minnesota faced a significant housing shortage, especially for low- and moderate-income residents. Nearly half a million households in Minnesota were spending more than 30% of their income on housing.¹ Minnesota has the fourth-largest disparity in the homeownership rates between white/non-Hispanic households and households of color and Indigenous households.² In addition, an Indigenous person is over 20 times more likely to be homeless than a person who is white.³ The economic impact of COVID-19 has made the situation worse. In December 2020, roughly 300,000 households in Minnesota had no or only slight confidence in being able to make their next housing payment.⁴

In 2020, even in the midst of a pandemic, Minnesota Housing maintained its strategic focus to:

GO BIG SO EVERYONE CAN GO HOME

We had a strong year, despite the enormous challenges posed by COVID-19. While shifting our agency’s entire operations to work-from-home, we still made significant strides in going big. Compared with the previous year, we increased:

- The number of households served from 68,900 to 72,900 households, and
- The housing resources distributed from \$1.42 billion to \$1.62 billion.

IN 2020, WE SERVED
72,871 HOUSEHOLDS
AND DISTRIBUTED
\$1.62 BILLION IN RESOURCES

The increased activity crosses all program areas from rental to homeownership.

PROMOTING AND SUPPORTING SUCCESSFUL HOMEOWNERSHIP

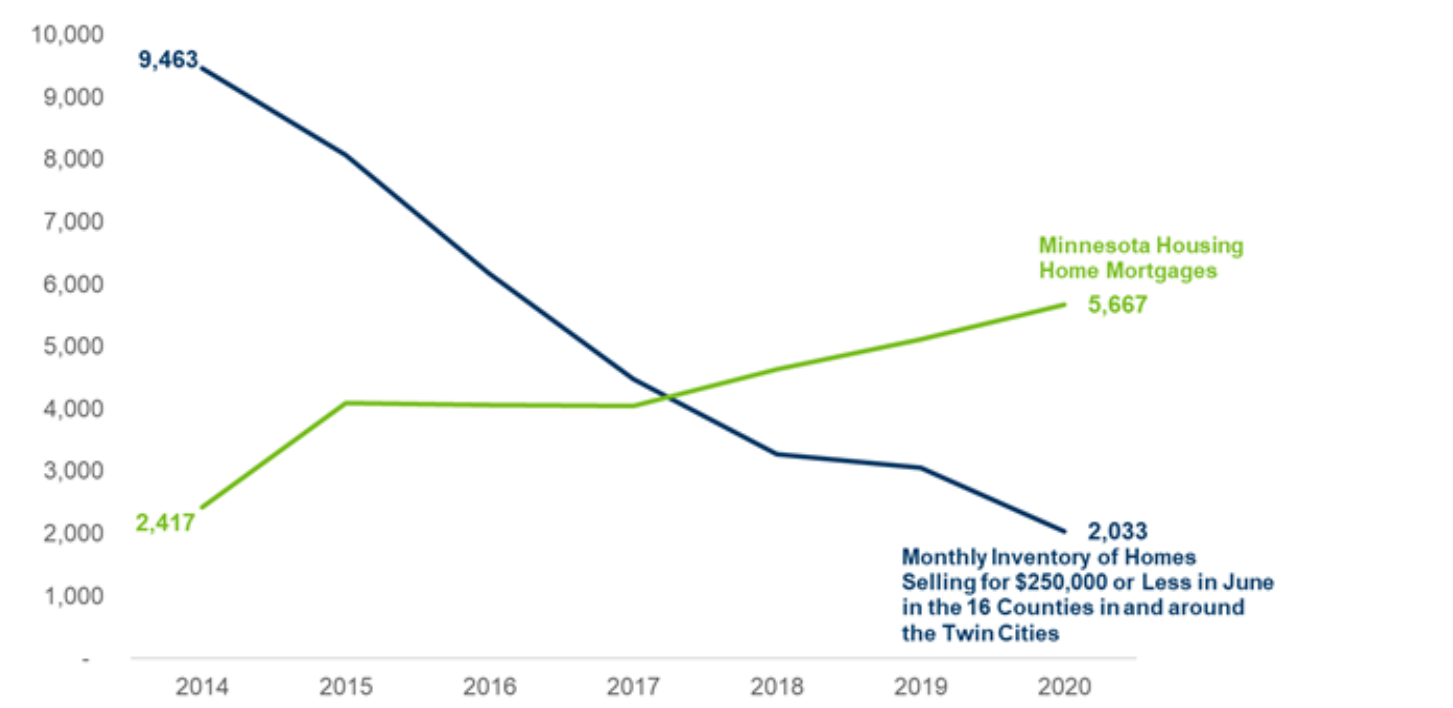

We finance: (1) pre- and post-purchase counseling, education and coaching; (2) mortgages and downpayment/closing-cost assistance loans; and (3) home improvement loans. Highlights from 2020 include:

- Increasing our mortgage lending by 11% from 5,105 homebuyers in 2019 to 5,667 in 2020;
- Delivering 34% of our first-time homebuyer mortgages (Start Up) to Black, Indigenous and people of color households, when the overall mortgage industry in Minnesota only delivers 17%;
- Serving over 24,000 homebuyers and owners through education, counseling and coaching (an 16% increase from 2019); and
- Expanding lending under our Home Improvement Loan Program by 26% from 872 homes in 2019 to 1,097 in 2020.

FIGURE 1: MINNESOTA HOUSING HAS INCREASED ITS HOME LENDING EVEN WHEN THE INVENTORY OF AFFORDABLE HOMES IS DECLINING

6%

FINANCING THE DEVELOPMENT AND PRESERVATION OF RENTAL HOUSING

We finance new rental construction and the preservation of existing rental housing through amortizing first mortgages, housing tax credits and zero-interest, deferred loans. Highlights from 2020 include:

- 2,811 rental housing units were produced or preserved in 2020.

The 2020 consolidated Request for Proposals (RFP) resulted in the selection or advancement of \$195 million for the development and rehabilitation of rental housing. These resources along with leveraged funds will support \$529 million of housing development and rehabilitation. The projected impact resulting from this investment is nearly 2,400 housing units. Because these projects have just been selected for funding, the rental units they finance will show up in future Program Assessments as the projects are completed.

PROVIDING HOUSING STABILITY FOR POPULATIONS NEEDING EXTRA SUPPORT

We provide rental assistance, operating subsidies for supportive housing, homelessness prevention resources and other assistance. Highlights for 2020 include:

- We served 7,900 households with annual incomes typically around \$10,000. The annual assistance per-household is typically in the \$1,000 to \$8,500 range.

ADMINISTERING FEDERAL PROJECT-BASED RENTAL ASSISTANCE

We administer the Section 8 project-based rental assistance program in Minnesota for the U.S. Department of Housing and Urban Development (HUD). Highlights for 2020 include:

- Supporting nearly 28,000 households with rental assistance and contract administration. The federal government has not added housing units to this stock since the 1980s. Our goal is to effectively manage the contracts and preserve the affordability and condition of these units. From program year 2020, only 30 units are in line to be potentially lost after the property owners opted out of their contracts.

In July, Minnesota Housing received \$100 million through the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act and in record time designed and started operating the COVID-19 Housing Assistance Program by the end of August. The program helps households that have been impacted by COVID-19 through unemployment, illness or other COVID-19-related circumstances. Funds were awarded to local administrators across the state to help households that had unpaid rent, mortgage, and utility payments, as well as unpaid homeowner association dues, contract for deed payments, homeowner insurance payments, and other housing-related expenses.

Eligible applicants were required to have a household income at or below 300% of federal poverty guidelines, with a preference for those at or below 200% of federal poverty guidelines. In program year 2020 (ended September 30, 2020), \$5.5 million in COVID-19 Housing Assistance were approved for disbursement to more than 2,500 households. In the first several months of program year 2021, local administrators continued processing applications and this activity will show up in next year's program assessment. The funds are reaching households with a median income of \$18,000 and 56% are BIPOC households.

DETAILED TABLES

Detailed tables encompass the body of this report and include information that must be reported to the State Legislature annually, which is why we provide detailed information for each program. Full descriptions of these programs can be found in [Appendix B of the 2020-2021 Affordable Housing Plan](#). following table provides a quick overview of the programs.

OVERVIEW OF MINNESOTA HOUSING PROGRAMS

Home Mortgages	
Start Up (first time homebuyers)	Amortizing Loans
Step Up (primarily repeat homebuyers)	Amortizing Loans
Downpayment and Closing-Cost Assistance for Homebuyers	
Deferred Payment Loan (DPL)	Deferred Loans
Monthly Payment Loan (MPL)	Amortizing Loans
Homebuyer/owner Education, Counseling & Coaching	
Homeownership Education, Counseling & Training (HECAT)	Grants
Enhanced Homeownership Capacity Initiative (intensive coaching)	Grants
Home Improvement	
Home Improvement Loan Program	Amortizing Loans
Rehabilitation Loan Program (RLP)	Deferred Loans
Single Family Housing Development (New Construction and Rehab)	
Community Homeownership Impact Funds	Deferred Loans and Grants
Other	
Disaster Recovery	Deferred Loans
Manufactured Home Relocation Trust Fund	Grants
Technical Assistance and Operating Support	Grants
Manufactured Home Community Redevelopment	Grants
Rental Production – New Construction and Rehabilitation	
Low and Moderate Income Rental (LMIR)	Amortizing First Mortgages
Flexible Financing for Capital Costs (FFCC)	Deferred Loans

Rental Production – New Construction and Rehabilitation	
Low Income Housing Tax Credits (LIHTC)	Investment Tax Credits
Economic Develop. & Housing/Challenge (EDHC)	Deferred Loans
Housing Infrastructure Bonds	Deferred Loans
Preservation - Affordable Rental Housing Fund (PARIF)	Deferred Loans
HOME	Deferred Loans
National Housing Trust Fund	Deferred Loans
Publicly Owned Housing Program (POHP)	Deferred Loans
Rental Rehabilitation Deferred Loan (RRDL) Program	Deferred Loans
Asset Management	Deferred or Amortizing Loans
Workforce Housing Development	Grants or Loans
Rental Assistance Contract Administration	
Section 8 Project-Based Rental Assistance	Grants
Housing Stability	
Housing Trust Fund – Rental Assistance (HTF-RA)	Grants
Housing Trust Fund – Operating Subsidies	Grants
Bridges – Rental Assistance	Grants
Homework Starts with Home	Grants
Section 811 – Rental Assistance	Grants
Family Homeless Prevention and Assistance Program (FHPAP)	Grants
Housing Opportunities for Persons with AIDS (HOPWA)	Grants
COVID Housing Assistance Program	Grants

Table 1 (page 10-11): Median incomes of households served by each program

We serve the full continuum of low- and moderate-income households. On the low end, the median annual income of people who recently moved into housing funded with Housing Infrastructure Bonds (supportive housing or housing with project-based rental assistance) was just \$6,168. On the high end, the median income of people who received Step Up (home mortgages primarily for repeat homebuyers) was \$81,538. For context, the 2020 poverty level for a family of three was \$21,720, and the 2020 median family income in Minnesota was \$98,700.

Table 2 (page 12-13): Income distribution by type of assisted household

The majority of homebuyers that we served had an income below \$60,000; the majority of homeowners that we served had an income below \$50,000; and the majority of renters had an income below \$15,000.

Table 3 (page 16-18): Key funding and demographic statistics for each program

The table provides the level of assistance, the number of households served and their characteristics.

- Slightly over one-third of the homebuyers that we serve are BIPOC households (34.2%), compared with 17% served by the overall mortgage industry in Minnesota.
- The Enhanced Homeownership Capacity Initiative (intensive financial coaching for people who want to become homeowners but do not currently qualify) is reaching a particularly large share of BIPOC households (82.9%).
- A smaller share of households served by our home improvement programs are BIPOC households (9% to 11%). For context, these underrepresented communities account for 10% of all homeowners in Minnesota who income-qualify for one of these programs.
- The majority of the households served by many of the rental programs are BIPOC households.

Table 4 (page 19-20): Information about BIPOC households receiving direct assistance from Minnesota Housing by program

In 2020, we provided over \$534 million of direct financial assistance to nearly 23,000 BIPOC households. This only includes loans, rental assistance or other supports provided directly to households. It does not include any of the funding provided to developers for the development and rehabilitation of affordable rental housing. For the programs included in the Table 4 calculation, over a third of the assistance (37%) went to BIPOC households.

Project-based Section 8 rental assistance plays a critical role in the overall share of direct assistance going to households of Black, Indigenous and people of color communities because it is our largest program in terms of households served. In 2020, 43% of Section 8 assistance went to BIPOC households. Seniors account for 45% of project-based Section 8 tenants, and seniors are a less racial diverse population than younger Minnesotans.

Table 5 (page 22-23): Distribution of resources by region

We distribute our competitive resources (grants, deferred loans and housing tax credits) fairly evenly across the state. Each region’s share of our competitive assistance is close to its share of lower-income households that are cost burdened by their housing payments (housing payments accounting for more than 30% of gross income). For example, the seven-county Twin Cities metro region has 54.9% of the state’s lower-income cost-burdened households and received 49% of our competitive funding in 2020.

The Twin Cities metro area received a larger share of our market-driven resources (68.2%), which are our amortizing loans – primarily home mortgages, home improvement loans and first mortgages for rental development. Demand for our amortizing loan products is lower in Greater Minnesota because the U.S. Department of Agriculture’s Rural Development also provides these types of products, which are only available in rural areas.

Table 6 (page 24-28): Comparison of assistance levels for each program for the years 2018, 2019 and 2020

Overall, program funding has increased from \$1.27 billion to \$1.62 billion. The number of assisted households increased from 67,000 to 73,000. Between 2018 and 2020, the number of households or housing units assisted increased or remained stable for most program areas. However, the number of clients served by the Housing Stability programs declined from 9,770 to 7,934, largely because these programs are increasingly focusing on rapid re-housing and harder-to-serve clients who typically need more assistance.

Table 7 (page 29-30): Characteristics of the households served in 2020

We prioritize serving the communities most impacted by housing instability, which includes people experiencing homelessness, people with a disability, seniors, children, BIPOC households, and the people with lowest incomes. Table 3 provides data on income levels and BIPOC households. Table 7 provides information on people experiencing homelessness, people with a disability, seniors and families with children. With respect to homeownership, the Rehabilitation Loan Program is particularly effective in reaching senior households and households with a member who is disabled. On the rental side, 77% of households receiving rental assistance through our Housing Trust Fund program have experienced long-term homelessness. In addition, Bridges (rental assistance for people with a mental illness) is designed to serve people with a disability. Of all our programs, the Community Homeownership Impact Fund (resources to develop and rehabilitate homes for low- and moderate-income homebuyers) is the most effective program at serving families with children, accounting for nearly 55% of the households served. As shown in Table 3, the median income of these households was only \$48,000.

Notes: Data available for this table include non-Section 8 resources Minnesota Housing provided in 2020.

Competitive funds are generally distributed to developers and service organizations through a competitive process, such as a Request for Proposals.

Grants and deferred loans are state and federal appropriations (other than Section 8), and Minnesota Housing Pool 3 resources.

Housing tax credits reflect the syndication proceeds in developments for which loans closed with 9% housing tax credits in 2020 (not including suballocators).

Amortizing loans involve regular principal and interest payments with borrowers deciding if they want to apply for a Minnesota Housing loan or pursue other lending options.

Regional total amounts include data for Duluth, Minneapolis, and Saint Paul, i.e., the sum of regional shares is 100%.

Share of lower income cost-burdened households is based on estimates of the number of households with income less than \$50,000 who pay more than 30% of income for housing (from the Census Bureau's American Community Survey, 2015-2019).

* The demographic information for rental production numbers exclude units that also receive Section 8 Project-Based vouchers.

TABLE 6: CONTINUED, ASSISTANCE BY PROGRAM, FFY 2018-2020

Notes

¹ For programs in which Minnesota Housing provides second mortgages in conjunction with other Minnesota Housing assistance, units are counted only once, i.e., under the program from which the first mortgage or greatest amount of financing was provided.

² HOME HELP may be funded prior to or after closing on the first mortgage. The HOME HELP reported here is based on funding date of the HOME HELP loan.

³ HECAT is also funded through other partners; amount shown is Minnesota Housing's contribution to all households assisted.

⁴ Multifamily activity numbers for 2011 and 2012 have been adjusted/corrected from previous reports to ensure consistency with 2013 data, i.e., total units are shown by program and an unduplicated unit count is shown for subtotals. Rental Production in all three years has been updated to include Challenge, previously reported under Multiple Use Resources.

⁵ Beginning with the report for 2010, the total amount of syndication proceeds are reported for developments with loans that closed in the reporting year. Previous reports have shown the annual amount of credit claimed for the first time in the previous year (an annual average of \$8.4 million in credits from 2007-2009), which underreported the value of housing tax credits. Tax credit units receiving Minnesota Housing assistance are counted only once, under the program from which the agency disbursed assistance funds. Data do not include suballocator units.

Fluctuation in the dollar value of syndication from year to year may be attributable to fluctuation in the number of loan closings occurring in a given year, fluctuation in tax credit pricing, and increased syndication proceeds related to utilization of the 4% tax credit resource in 2013.

⁶ Previous reports only included those Section 236 units financed by Minnesota Housing (approximately 500); this report includes all Section 236 units for which Minnesota Housing currently makes interest reduction payments.

⁷ Assistance amount for Bridges and Housing Trust Fund Rental Assistance is the actual voucher and security deposit amounts disbursed during the reporting year. Average assistance per household is estimated for 12 months based on average monthly assistance (including security deposits) paid in the reporting year. Both the Bridges and Housing Trust Fund assistance amounts include some ELHIF resources.

⁸ Beginning in 2009, for greater consistency and accuracy, data on FHPAP assistance has been reported by State Fiscal Year (July 1 through June 30), based on expenditures for assistance and services reported to Minnesota Housing by FHPAP providers.

Quickstart Disaster Recovery	85.7%	N/A	N/A	N/A

*For all programs except FHPAP, disability percentages are based on the disability status of any household member; for FHPAP, the disability percentage is based on the disability status of only the head of the household. When interpreting these percentages, one would expect lower percentages when considering only the head of the household's disability status.

Seniors= 62 and older

Long-term Homeless= Lacking a permanent place to live continuously for a year or more, or at least four times in the past three years.

NOTES

¹ Data for all programs include loans and grants purchased, closed, or disbursed during the program year, not loans and grants currently committed but not yet disbursed. For programs in which Minnesota Housing provides second mortgages in conjunction with other Minnesota Housing assistance, total units are shown by program, but are unduplicated in subtotal and total unit counts.

Tenant demographics for rental units are reported to Minnesota Housing by owners of agency-funded developments being monitored for compliance with program rules. Data include characteristics of tenants occupying developments funded prior to the reporting year. These data are proxies for the tenants most likely to move into these units. With the exception of households with a disabled member, all percentage calculations are based on households with complete information reported; due to the availability of data, we calculated percentages of disabled households based on the total number of households reporting. Household income is based only on tenants with income reported in the last three years.

Tenant characteristics will vary from year-to-year reflecting the number, size, location, and type of developments on which owners report.

² These are households in which the head of household (borrower or coborrower, in the case of homeownership or home-improvement loans) is of a race other than white or is of Latinx/Hispanic origin.

³ Data include first mortgages that U.S. Bank Home Mortgage HFA Division purchased during the reporting year.

⁴ Includes the number of households that received a mortgage credit certificate, either with or without a first mortgage from Minnesota Housing.

⁵ The number of HECAT households served includes people who took the online Framework course.

⁶ Includes Financing Adjustment Factor and Financing Adjustment (FAF/FA) resources.

⁷ Total assistance amount for Bridges and Housing Trust Fund Rental Assistance is the actual voucher, security deposit, and housing expense amounts disbursed during the reporting year. Average assistance per household is estimated for 12 months based on average monthly assistance paid in the reporting year.

⁸ Beginning in 2009, for greater consistency and accuracy, data on FHPAP assistance has been reported by State Fiscal Year (July 1 through June 30), based on expenditures for assistance and services reported to Minnesota Housing by FHPAP providers and demographic data reported in HMIS. Because the organization administering the data for FHPAP is improving the system for maintaining the data, the FHPAP demographic information in this report should be considered estimates, not actuals. The household served and dollars are actuals.

⁹ The Community Homeownership Impact Fund includes Single Family's Economic Development and Housing/Challenge Fund resources. This is a count of loans, not households; some households may receive more than one loan under this program.

¹⁰ COVID Housing Assistance Program data are based on households that had their application for assistance approved in FFY2020, and funds had not yet necessarily been disbursed.
