MINNESOTA HOUSING FINANCE AGENCY

Commissioner's Report

At Minnesota Housing, we are pleased to have completed another year with strong financial and programmatic results.

Minnesota continues to enjoy strong economic activity, with unemployment at 3.9%, compared to 5.3% nationally, and jobs growing to the 2.77 million level. The housing market is also improving, with the number of foreclosure sales in Minnesota dropping almost 30% from 11,834 in 2014 to 8,313 in 2015. Home sales prices continue to improve, rising 7% in the last year from \$193,000 in June 2014 to \$206,500 in June 2015, but remaining below their 2006 peak. In this marketplace environment, we capitalized on strong market conditions and low interest rates to improve both our product offerings and our financial condition with positive programmatic results:

- During the current fiscal year, we offered a suite of single family home mortgage programs. With more stability in the employment market and the threat of higher interest rates nationally, first time homebuyers entered the market this year in strong numbers. Minnesota Housing had one of our highest home mortgage volume years ever, with 3,960 loans – up from 2,620 loans last year, more than a 50% increase. The Agency increased our allocation of down payment and closing costs assistance resources during the year to support this production and to ensure that the Agency is reaching its targeted borrowers. More than 93% of mortgage loans went to first time homebuyers and more than 26% were for households of color and Hispanic ethnicity.
- The capital markets and best execution funding strategy employed nearly three years ago continues to serve the Agency well. Record single family production and prospects that Federal Reserve will raise short term interest rates in the coming months adds a significant amount of interest rate risk to the Agency. Hedging a mortgage pipeline effectively removes the risk of rising interest rates and it is our strategy to be 100% hedged at all times. Today, the Agency is a national leader in funding new single family production through the issuance of pass-through housing bonds while opportunistically refunding older bond transactions to take advantage of today's lower interest rate environment. In fiscal year 2015, Minnesota Housing financed over \$300 million of new mortgage production through the issuance of tax exempt bonds and refinanced nearly \$150 million of older bonds, helping to improve both short and long term finances of the Agency. We expect to remain an active issuer of tax exempt bonds, while continuing to sell loans into the capital markets when that is the better execution.
- We have seen continued improvement in our Real Estate Owned (REO) portfolio with the number of REO properties declining from 67 last year to 42 at the end of June, 2015. In addition, the average loss on the sale of REO properties declined from \$21,016 last year to \$18,419 at the end of June, 2015. Delinquency rates continued to drop from June of last year, and have stabilized at a 4.45% rate for 60+ days, and the foreclosure rate has held steady at 1.25%. We continue our strategy of placing virtually all new loan production into mortgage-backed securities.
- The State of Minnesota went into its 2015 legislative session with a large budget surplus. We received appropriations of \$104.6 million for the biennium beginning July 1, 2015, which represents a \$3 million increase from the previous biennium. The Agency also received a \$10 million allocation of Housing Infrastructure bonds from a small capital investment bill passed by the legislature. Because the state appropriates debt service for these bonds, we are able to use the proceeds of the bonds as deferred financing for projects. The Agency enjoys broad bipartisan support from the state legislature.
- We are working to further develop our multifamily first mortgage lending capacity, including the processing of FHA MAP (Multifamily Accelerated Processing) loans along with FHA Risk Share loans. Two multifamily underwriters have now completed their MAP training, one loan has closed and several loans have received concept approval from HUD.
- We closed 98 loans and grants on 83 multifamily properties totaling nearly \$57 million and providing affordable housing to 4,067 households (units), 675 of which were designated to serve long-term homeless households. Of the 98 transactions that closed, the Agency provided financing to 11 federally assisted developments, which resulted in the preservation of 856 units and are estimated to leverage more

MINNESOTA HOUSING FINANCE AGENCY

Commissioner's Report (continued)

than \$70 million in federal rent subsidies during the affordability periods of the properties. Forty-two new developments included units of supportive housing for families and individuals who experienced long term homelessness.

- In partnership with the non-profit Minnesota Homeownership Center, we supported pre-purchase education and counseling, foreclosure prevention counseling and reverse mortgage counseling. Nearly 13,000 households throughout the state used these services last year. More than 3,400 of those households received their counseling through an on-line homebuyer counseling program called Framework, which makes homebuyer counseling accessible and convenient for many more households. In addition, we launched a new, intensive coaching and counseling program targeted primarily for households of color and Hispanic ethnicity who often experience difficulty accessing mortgage loans through conventional channels. Since its start, 442 households have started this program, of which 92% are households of color and Hispanic ethnicity.

Minnesota Housing took other important steps during the year to set our course for the future:

- Completed a comprehensive risk-based capital adequacy study, including five-year financial forecasts under several interest rate and production scenarios.
- Adopted a new 2016-2019 Strategic Plan entitled "Housing is the Foundation for Success".
- Worked with the Interagency Council on Homelessness comprised of 11 state agency commissioners to implement a new Statewide Plan to Prevent and End Homelessness. Based on the annual census of homeless individuals conducted in January 2015, the state saw a 10% decline in homeless households compared to the previous year.
- Continued our significant investment in the redesign of business processes and the technology to support them that was started in 2012. During the year, Minnesota Housing:
 - Continued the movement of all amortizing and deferred loans serviced by the Agency to a comprehensive loan servicing system. This has resulted in the elimination of over 1000 spreadsheets, improved access to loan data and streamlined processes for loan servicing
 - Entered into a contract with Accenture Mortgage Cadence for the development and installation of a new single family loan origination system. The system will allow for the electronic transfer of data from multiple loan origination systems used by originating lenders and will dramatically improve internal processes for the Agency.
 - Redesigned our developer application for multifamily tax credits and funding resources as a first step in a larger project to the redesign of business processes for multifamily loan processing operations.
 - Entered into contracts for the design and implementation of several important agency-wide technology utilities, including a data strategy and a customer relationship management platform.

We are proud to maintain multiple programs so that individuals and families with a wide range of needs can obtain stable, affordable housing. We are committed to building and maintaining the elements that have sustained our work for more than 40 years – our people, our partners, our community support and our financial strength.

Mary Tingerthal, Commissioner
Minnesota Housing
August 12, 2015

Independent Auditors' Report

To the Board of Directors
Minnesota Housing Finance Agency
Saint Paul, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and each major fund of Minnesota Housing Finance Agency (the Agency), a component unit of the State of Minnesota, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Agency's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of Minnesota Housing Finance Agency, a component unit of the State of Minnesota, as of June 30, 2015, and the respective changes in financial position and cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter—Adoption of Standards

As explained in the Summary of Significant Accounting Policies in the notes to the financial statements, the Agency adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions, an amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68*, which resulted in the Agency restating net position for recognition of the Agency's pension-related activity incurred prior to July 1, 2014. Our opinion is not modified with respect to this matter.

Other Matters

Report on Summarized Comparative Information

The financial statements include summarized prior-year comparative information. Such information does not include all of the information required or sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information

Independent Auditors' Report (continued)

should be read in conjunction with the Agency's financial statements for the year ended June 30, 2014, from which such summarized information was derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedule of selected pension information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Agency's basic financial statements. The introductory section, the supplementary information and other information as listed in the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The 2015 supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2015 supplementary information is fairly stated, in all material respects, in relation to the 2015 basic financial statements as a whole.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the Agency's 2014 basic financial statements (not presented herein), and have issued our report thereon dated August 25, 2014, which contained unmodified opinions on the respective financial statements of the business-type activities and each major fund. The accompanying supplementary information, as listed in the table of contents, for the year ended June 30, 2014, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2014 financial statements. The accompanying supplementary information has been subjected to the auditing procedures applied in the audit of the 2014 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements, or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2014 supplementary information is fairly stated in all material respects in relation to the 2014 basic financial statements taken as a whole.

The introductory section and other information have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Minneapolis, Minnesota

MINNESOTA HOUSING FINANCE AGENCY

Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations is not audited. However, it is supplementary information required by accounting principles generally accepted in the United States of America. This discussion should be read in conjunction with the financial statements and notes thereto.

Introduction

The Minnesota Housing Finance Agency (Minnesota Housing or the Agency) was created in 1971 by the Minnesota legislature through the enactment of Minnesota Statutes, Chapter 462A, which has been amended from time to time. The Agency was established to facilitate the construction and rehabilitation of housing in Minnesota for families of low- and moderate-income by providing mortgage loans, development loans, and technical assistance to qualified housing sponsors. Minnesota Housing is a component unit of the State of Minnesota and receives appropriations from the state legislature, substantially all of which are used to make loans or grants under specified state-defined programs and to pay debt service and related expenses on state appropriation-backed housing bonds. Minnesota Housing also receives funds appropriated by the federal government for similar program purposes. The Agency's mission is to finance affordable housing for low- and moderate-income Minnesotans while fostering strong communities.

Minnesota Housing is authorized to issue bonds and notes to fulfill its corporate purposes up to a total outstanding amount of \$5.0 billion and to incur other indebtedness. None of the bonds, notes or other indebtedness is a debt of the State of Minnesota or any political subdivision thereof.

Minnesota Housing operates three program divisions — Multifamily, Single Family and Community Development — which offer housing programs with funding from the sale of tax-exempt and taxable bonds, state and federal appropriations, the Housing Trust Fund and the Alternative Loan Fund. The federal Low Income Housing Tax Credit is another resource the Agency allocates. The members of Minnesota Housing (the Board) consist of six public members appointed by the Governor with the advice and consent of the state senate and the State Auditor as an ex-officio member.

Discussion of Financial Statements

The Financial Section of this report consists of three parts: the independent auditors' report, management's discussion and analysis (this section), and the basic financial statements. The basic financial statements are prepared on an accrual basis and presented on an Agency-wide basis and by fund.

- Agency-wide financial statements provide information about Minnesota Housing's overall financial position and results of operations. These statements consist of the Statement of Net Position and the Statement of Activities. Significant interfund transactions have been eliminated within the Agency-wide statements. Assets and revenues of the separate funds that comprise the Agency-wide financial statements are generally restricted as to use and the reader should not assume they may be used for every corporate purpose.
- The fund financial statements provide information about the financial position and results of operations for Minnesota Housing's eight proprietary funds.
- The financial statements also include "Notes to Financial Statements" which provide more detailed explanations of certain information contained in the Agency-wide and fund financial statements.

Required and other Supplementary Information is presented following the Notes to Financial Statements for certain funds of Minnesota Housing, which have been established under the bond resolutions under which Minnesota Housing issues bonds and other debt for its programs. These funds consist of General Reserve and the bond funds, which are Rental Housing, Residential Housing Finance, Homeownership Finance, HOMESSM and Multifamily Housing.

The basic financial statements also include comparative totals as of and for the year ended June 30, 2014. Although not required, these comparative totals are intended to facilitate an understanding of Minnesota Housing's financial position and results of operations for fiscal year 2015 in comparison to the prior fiscal year.

MINNESOTA HOUSING FINANCE AGENCY

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Discussion of Individual Funds

General Reserve

The purposes of General Reserve are to maintain sufficient liquidity for Minnesota Housing operations, to hold escrowed funds and to maintain the Housing Endowment Fund (also referred to as Pool 1). The costs of administering Minnesota Housing programs are captured on the Statement of Revenues and Expenses for General Reserve. The fees earned are generally related to the administration of the federal Low Income Housing Tax Credit program, administration of the federal Housing Assistance Payment program, and contract administration of the Section 8 program for developments not financed by Minnesota Housing.

Rental Housing

More than one-half of the developments with a first mortgage loan presently held in Rental Housing receive Section 8 payments under contracts that are for substantially the same length of time as the mortgage loans.

Inherent risks remain in these portfolios, especially for multifamily developments without project-based tenant subsidies. Maintaining asset quality is a high priority for Minnesota Housing; therefore, this portfolio receives a significant amount of oversight.

All of Minnesota Housing's bond-financed multifamily loans, except loans financed under state appropriation-backed housing bonds, conduit bonds, and one loan under Multifamily Housing, are financed in Rental Housing as of June 30, 2015. Funds in excess of bond resolution requirements may be withdrawn and used to redeem any Agency bonds, to fund housing programs and for Agency operations.

Residential Housing Finance

Included within Residential Housing Finance are the bonds issued and outstanding under the Residential Housing Finance bond resolution, and the restricted by covenant Alternative Loan Fund which consists of the Housing Investment Fund (Pool 2), and the Housing Affordability Fund (Pool 3). The Alternative Loan Fund is not pledged as security for any bonds of the Agency but is available to pay debt service on any bonds except appropriation-backed bonds and conduit bonds.

Bonds have been issued for the purpose of funding purchases of single family first mortgage loans, mortgage-backed securities backed by single family mortgage loans, certain entry cost housing assistance loans, and unsecured and secured subordinated home improvement mortgage loans. The majority of the single family loans financed by these bond issues are insured by private mortgage insurance or the Federal Housing Administration (FHA), or guaranteed by the U.S. Department of Veterans Affairs (VA) or the U.S. Department of Agriculture Rural Development (RD). While mortgage insurance and guarantees help mitigate the risk of loss to the Agency, inherent risks remain including the impact of declining home values on default recoveries and the risk of deterioration to the credit worthiness of insurers. The Agency's collection experience among mortgage insurers has been generally favorable.

This bond resolution, along with the Homeownership Finance bond resolution (see Homeownership Finance below), were the principal sources of financing for bond-financed homeownership programs. Minnesota Housing may also issue bonds for its home improvement loan program under this bond resolution although no bonds were issued to support home improvement lending during fiscal year 2015.

Assets of the Housing Investment Fund (Pool 2) consist of investment quality housing loans, as defined by the Agency, and investment grade securities. During fiscal year 2015 this fund provided capital for several Agency programs including its home improvement loan program and its multifamily first-mortgage loan program. It also provided capital for warehousing purchases of mortgage-backed securities secured by single family first mortgage loans before those securities are permanently financed by issuing bonds, permanently financed with HOMESSM certificates (see below for a description of the HOMESSM program), or sold into the TBA market. In addition, it provided capital for amortizing second lien homeownership loans made in conjunction with the Agency's single family first mortgage loans, for tax credit bridge loans, for loans to partner organizations to acquire, rehabilitate and sell foreclosed homes and to develop new affordable

MINNESOTA HOUSING FINANCE AGENCY

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Discussion of Individual Funds (continued)

housing, and for bond sale contributions. The fund may also provide interim financing for construction and rehabilitation of single family housing and may be used to advance funds to retire debt.

Assets of the Housing Affordability Fund (Pool 3) consist of investment-grade securities when not utilized for program purposes. Program purposes include, but are not limited to: no-interest loans, loans at interest rates substantially below market, high risk loans, deferred loans, revolving funds, and grants. During fiscal year 2015 funds from Pool 3 were used for entry cost assistance for first-time homebuyers, below-market interim financing for construction and rehabilitation of single family housing, capital costs and rental assistance for permanent supportive housing, advances for certain multifamily housing developments in anticipation of permanent funding through state appropriation-backed housing bonds, and deferred, subordinated multifamily loans.

Funds in excess of bond resolution requirements may be withdrawn and used to redeem any Agency bonds, to fund housing programs and for Agency operations.

Homeownership Finance

This bond resolution was originally adopted for the purpose of issuing mortgage revenue bonds under the United States Treasury's Single Family New Issue Bond Program (NIBP). Non-NIBP mortgage revenue bonds, which also meet resolution requirements, have also been issued under this resolution. Bonds issued under this resolution fund mortgage-backed securities backed by single family mortgage loans. These securities are guaranteed as to payment of principal and interest by either the Government National Mortgage Association or the Federal National Mortgage Association. Funds in excess of bond resolution requirements may be withdrawn and used to redeem any Agency bonds, to fund housing programs and for Agency operations.

Home Ownership Mortgage-backed Exempt Securities (HOMESSM)

This bond indenture implements a program developed by the investment banking division of a major bank whereby the Agency issues and sells to the investment bank limited obligations of the Agency (HOMESSM certificates), each secured by a mortgage-backed security guaranteed by FNMA or GNMA. Minnesota Housing is not committed to sell any HOMESSM certificates but has the option to accept the investment bank's bid for HOMESSM certificates, which may be a higher price than the Agency could achieve by selling the mortgage-backed security in the open market. The HOMESSM Certificates are not secured by the general obligation pledge of the Agency and are not protected by the moral obligation backing from the State of Minnesota.

Multifamily Housing

This bond resolution was adopted for the purpose of issuing multifamily housing bonds under the United States Treasury's Multifamily New Issue Bond Program. Bonds were issued during a prior fiscal year for one rental housing project.

State and Federal Appropriated Funds

The appropriated funds are maintained by Minnesota Housing for the purpose of receiving and disbursing monies appropriated by the state and federal government for housing. The entire balance of the appropriated funds' net position is restricted by law for specified uses set forth in the state appropriations or federal contracts and are not pledged or available to secure the bondholders or creditors of Minnesota Housing.

The State Appropriated fund was established to account for funds, received from the state legislature, which are to be used for programs for low- and moderate-income persons and families and multifamily housing developments in the form of low-interest loans, no-interest deferred loans, low-interest amortizing loans, debt service and other costs associated with appropriation-backed housing bonds, and other housing-related program costs.

MINNESOTA HOUSING FINANCE AGENCY

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Discussion of Individual Funds (continued)

The Federal Appropriated fund was established to account for funds received from the federal government which are to be used for programs for low- and moderate-income persons and families and multifamily housing developments in the form of no-interest deferred loans and grants in support of foreclosure counseling and remediation efforts, assistance to tax credit developments, and other housing-related program costs.

General Overview

Minnesota Housing financial statements are presented in two formats: agency-wide and by fund. Funds include Rental Housing, Residential Housing Finance, Homeownership Finance, Multifamily Housing, and HOMESSM (collectively the bond funds); State and Federal Appropriated (collectively the appropriated funds) and General Reserve. Agency-wide financial statements are provided to display a comprehensive view of all Minnesota Housing funds as required by accounting principles generally accepted in the United States of America applicable to governmental entities under accounting standards promulgated from time to time by the Governmental Accounting Standards Board. Agency-wide financial statements reflect totals of similar accounts for various funds. However, substantially all of the funds in these accounts are restricted as to use by Agency covenants or legislation as further described below.

Assets and revenues of the bond funds are restricted to uses specifically set forth in the respective bond resolutions and are pledged for the primary benefit of the respective bondholders and interest rate swap agreement counterparties. General Reserve is created under the Minnesota Housing bond resolutions as part of the pledge of the general obligation of Minnesota Housing. Minnesota Housing covenants in the bond resolutions that it will use the assets in General Reserve only for administration and financing of programs in accordance with the policy and purpose of the Minnesota Housing enabling legislation, including reserves for the payment of bonds and notes and of loans made from the proceeds thereof, and to accumulate and maintain therein such a balance of funds and investments as will be sufficient for the purpose.

Minnesota Housing has no taxing power and neither the State of Minnesota nor any political subdivision thereof is legally obligated to pay the principal of or interest on bonds or other obligations issued by Minnesota Housing. The state has pledged to and agreed with bondholders that it will not limit or alter the rights vested in Minnesota Housing to fulfill the terms of any agreements made with bondholders or in any way impair the rights and remedies of the bondholders.

Public funds directly appropriated to Minnesota Housing by the State of Minnesota or made available to Minnesota Housing from the federal government are restricted by law to specified uses set forth in the state appropriations or federal contracts. Assets and revenues of State Appropriated and Federal Appropriated funds are not pledged or available to secure bonds issued under the bond funds or other obligations of Minnesota Housing or its general obligation pledge in respect thereof.

In addition to its audited annual financial statements, Minnesota Housing has published unaudited quarterly disclosure reports for Residential Housing Finance and Homeownership Finance bond resolutions and unaudited semiannual disclosure reports for the Rental Housing bond resolution. Recent disclosure reports can be found in the "Investors" section on Minnesota Housing's web site at www.mnhousing.gov.

MINNESOTA HOUSING FINANCE AGENCY

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

FINANCIAL HIGHLIGHTS

The following financial highlights section refers to the General Reserve and bond funds. The reader is encouraged to review the Fund Financial Statements included as supplementary information in this 2015 Financial Report.

General Reserve and Bond Funds—Statement of Net Position

Loans receivable, investments, cash and cash equivalents, deferred loss on interest rate swap agreements, real estate owned, and interest receivable comprise the majority of assets and deferred outflows of resources in the General Reserve and bond funds. Equipment, fixtures, furniture, capitalized software costs, and other assets continue to be insignificant in relation to the total General Reserve and bond fund assets.

Loans receivable, net is the largest single category of bond fund assets. Loans are limited to housing-related lending for low- and moderate-income individuals and families and multifamily housing developments. Loans receivable, net decreased 10% to \$1,311.9 million at June 30, 2015 as a result of repayments, prepayments, and loss reserves net of new loan purchases and originations. Amortizing homeownership loans at fixed interest rates, secured by first mortgages, continue to be the dominant loan product offered by Minnesota Housing. In the last half of 2009, the Agency changed its business model from purchasing homeownership loans to purchasing mortgage-backed securities (MBS) secured by homeownership loans. As a result, the homeownership loan portfolio, now in runoff, will continue to shrink as repayments and prepayments are no longer offset by new loans. Instead, the portion of investments represented by MBS may increase as they are purchased in place of loans. The Agency also sells a portion of those MBS directly into the TBA market after hedging the interest rate risk with forward sales contracts at the time of loan commitment. The reduction in loans receivable during fiscal year 2015 was attributable to the runoff of the homeownership loan portfolio. The reserve for loan loss for the homeownership loan portfolio decreased due to reduced delinquency and a decrease in the estimated loss per delinquent loan. Minnesota Housing also has amortizing home improvement and rental rehabilitation loans which are no-interest, low-interest, and market-rate loans generally secured with second or subordinate mortgages. The reserve for loan loss for the home improvement loan portfolio decreased due to reduced amount of loans being delinquent. Amortizing multifamily loans at fixed interest rates, secured by first mortgages (referred to as the multifamily portfolio) exhibited little change in delinquency rate and the aggregate loan receivable balance. Minnesota Housing's primary loan programs offer fixed interest rate financing and therefore differ from the high risk characteristics associated with some adjustable payment loan products.

Homeownership Loan Portfolio Delinquency

Actual Loan Count

| | June 30, 2015 | | June 30, 2014 | |
|--|---------------|-------|---------------|-------|
| Current and less than 60 days past due | 9,443 | 94.3% | 10,247 | 93.6% |
| 60-89 days past due | 129 | 1.3% | 143 | 1.3% |
| 90-119 days past due | 51 | 0.5% | 89 | 0.8% |
| 120+ days past due and foreclosures ⁽¹⁾ | 394 | 3.9% | 467 | 4.3% |
| Total count | <u>10,017</u> | | <u>10,946</u> | |
| Total past due ⁽¹⁾ | 574 | 5.7% | 699 | 6.4% |

⁽¹⁾ In addition to loans customarily included in foreclosure statistics, "foreclosures" include homeownership loans for which the sheriff's sale has been held and the redemption period (generally six months) has not yet elapsed. This causes the delinquency rates in the table not to be directly comparable to delinquency rates reported by the Mortgage Bankers Association of America.

Home Improvement Loan Portfolio Delinquency
Actual Loan Count

| | <u>June 30, 2015</u> | | <u>June 30, 2014</u> | |
|--|----------------------|-------|----------------------|-------|
| Current and less than 60 days past due | 6,283 | 98.0% | 6,534 | 97.4% |
| 60-89 days past due | 58 | 0.9% | 61 | 0.9% |
| 90-119 days past due | 26 | 0.4% | 28 | 0.4% |
| 120+ days past due | 45 | 0.7% | 86 | 1.3% |
| Total count | <u>6,412</u> | | <u>6,709</u> | |
| Total past due | 129 | 2.0% | 175 | 2.6% |

The 60+ day delinquency rate as of June 30, 2015 for the entire Minnesota Housing homeownership loan portfolio, excluding those loans not customarily included in foreclosure statistics, exceed by approximately one and three quarters percentage points the delinquency rates of similar loan data available as of March 31, 2015 from the Mortgage Bankers Association of America for loans in Minnesota (as adjusted to reflect the proportions of insurance types in the Agency's loan portfolio).

Due to the unique program characteristics of the Minnesota home improvement loan portfolio, the Agency has determined that comparable delinquency data from other available sources is not directly comparable. The table above excludes inactive home improvement loans defined as delinquent loans for which the Agency has a valid lien but active collection efforts have been exhausted.

FHA/VA insurance claims, net consist of non-performing homeownership loans that are FHA insured or VA guaranteed. These loans are reclassified as claims receivable at the time the Agency files a claim. FHA/VA insurance claims, net increased 23% to \$4.6 million at June 30, 2015 as a result of an increase in the amount of loans with outstanding claims.

Real estate owned, net consists of properties acquired upon foreclosure of homeownership loans. Real estate owned decreased 55% to \$4.0 million at June 30, 2015 as a result of a decreased amount of foreclosure properties held within the homeownership portfolio on June 30, 2015.

While the delinquency rates and foreclosures in the Agency's loan portfolio remained above historical norms during fiscal year 2015, the combined net total of FHA/VA insurance claims and real estate owned remains immaterial compared to total loans receivable at June 30, 2015, being less than 1% of total net loans receivable. Management believes that reserves for loan losses are adequate based on the current assessment of asset quality.

No loans reside in General Reserve.

Investments, cash, and cash equivalents are the next largest categories of assets and are carefully managed to provide adequate resources for future debt service requirements and liquidity needs. The combined investments, cash, and cash equivalents increased 13% to \$1,644.1 million at June 30, 2015. The increase is principally a result of an increase in the balance of program mortgage-backed securities which are financed with mortgage revenue bonds. Mortgage-backed securities that are pledged as security for the payment of certain Agency mortgage revenue bonds and held in an acquisition account are classified on the statement of net position as "Investments- program mortgage-backed securities." All other mortgage-backed securities, including those held in anticipation of the Agency issuing mortgage revenue bonds or selling them into the TBA market (warehoused mortgage-backed securities), are classified as "Investment securities- other."

Interest receivable on loans and investments is a function of the timing of interest payments and the general level of interest rates. Combined loan and investment interest receivable decreased 4% to \$11.9 million at June 30, 2015. The decrease is mainly a result of a decrease in interest receivable on homeownership loans due to the runoff of that portfolio.

MINNESOTA HOUSING FINANCE AGENCY

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

General Reserve and Bond Funds—Statement of Net Position (continued)

Bonds payable is the largest single category of liabilities, resulting primarily from debt issued to fund housing-related lending. Bonds payable increased 0.7% to \$2033.3 million at June 30, 2015 because new bonding issuance outpaced scheduled redemptions and early bond redemptions of existing debt.

The companion category of interest payable decreased 8.8% to \$30.0 million at June 30, 2015 due to an increase in the proportion of outstanding bonds that require monthly debt service payments as opposed to semi-annual debt service payments.

While there is no debt issued in General Reserve, there is a significant liability for funds held for others. These funds are routinely collected and held in escrow on behalf of multifamily borrowers pursuant to loan documents and are used for future periodic payments of real property taxes, casualty insurance premiums, and certain capital expenditures. Funds held for others in General Reserve and HOMESSM remained about the same at \$67.2 million at June 30, 2015.

Accounts payable and other liabilities decreased to \$4.6 million at June 30, 2015. The two largest components of accounts payable continue to be: arbitrage rebate liability on tax-exempt bonds calculated pursuant to federal law and payable to the United States Treasury, which decreased \$0.6 million; and yield compliance liability, which decreased \$2.3 million. Minnesota Housing obtains from independent calculation specialists annual calculations of its arbitrage rebate liability. Other accounts payable items decreased a net \$0.5 million.

Interfund payable/receivable exists primarily as a result of interfund borrowing and pending administrative and program reimbursements between funds. Most administrative expenses are paid from General Reserve, with the bond funds and appropriated funds owing an administrative reimbursement to General Reserve for the respective fund's contribution to those administrative expenses.

The net position of General Reserve and bond funds is divided into two primary categories. Restricted by Bond Resolution is pledged to the payment of bonds, subject to bond resolution provisions that authorize Minnesota Housing to withdraw funds in excess of the amounts required to be maintained under the bond resolutions. Restricted by Covenant is subject to a covenant with bondholders that the Agency will use the money in General Reserve, and money that would otherwise have been released to General Reserve, only for the administration and financing of programs in accordance with the policy and purpose of Minnesota Housing's enabling legislation, including the creation of reserves for the payment of bonds and of loans made from the proceeds thereof, and will accumulate and maintain therein such a balance of funds and investments as will be sufficient for the purpose. The Board of the Agency has established investment guidelines for these funds to implement this covenant. Net position increased 1% to \$817.8 million at June 30, 2015 due to revenues over expenses for the fiscal year. Per GASB 68 and 71, the Agency was required to record a change in the beginning net position in the amount of \$22.380 million. This is a one-time negative adjustment to record the Agency's proportionate share pension liability.

General Reserve and Bond Funds—Revenues over Expenses

Revenues over expenses of General Reserve and bond funds decreased 21% from fiscal year 2014 when considering Pool 3 net expenses and the net effect of unrealized gains and losses that resulted from market valuation adjustments to certain investment assets. Ignoring the effects of unrealized gains and losses on investments, total revenues increased 2.4%. Total expenses, excluding Pool 3, increased 4% compared to the prior fiscal year. The largest revenue component, interest earned, increased during fiscal year 2015. Loan interest revenue decreased 8% in fiscal year 2015 as repayments and prepayments decreased the size of the homeownership loan portfolio. That portfolio is in runoff because of the change to the mortgage-backed securities business model during fiscal 2010. Investment interest revenue increased 33% in fiscal year 2015. Reinvestment rates for funds from other maturing and called investment securities rebounded as well as the rates on MBS, compared to the prior year.

Administrative reimbursements to General Reserve from bond funds were \$18.3 million in fiscal year 2015 compared to \$18.9 million during the prior fiscal year. General Reserve also incurs overhead expenses to administer state and federal appropriated housing programs. General Reserve received overhead reimbursements of \$1.9 million from the State and Federal Appropriated funds to recover certain overhead

MINNESOTA HOUSING FINANCE AGENCY

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

General Reserve and Bond Funds— Revenues over Expenses (continued)

expenses incurred during fiscal year 2015 compared to \$1.8 million during the prior fiscal year. Investment earnings within the State Appropriated fund were insufficient to reimburse the Agency for the full amount of overhead expense incurred for the state programs.

Other fee income to General Reserve and bond funds of \$12.8 million increased by \$1.4 million compared to the prior fiscal year. The primary components are service acquisition fees earned from the sale of mortgage servicing rights, fees earned from the federal low income housing tax credit program, Section 8 contract administration, federal Housing Assistance Payments administration, and various loan programs.

The net gain on the sale of mortgage-backed securities held for sale was \$3.9 million. Components of the net gain, in addition to the gain or loss on the security itself, include the cost of minimizing interest rate risk through forward sale contracts, certain trustee fees, and service release premiums. The net gain amount also includes the net gain on the sale of HOMESSM certificates, which is an Agency execution option essentially equivalent to the sale of mortgage-backed securities.

Minnesota Housing recorded \$11.3 million of unrealized gains on investment securities during fiscal year 2015, compared to \$16.8 million of unrealized losses during the prior year, a decrease of \$5.5 million.

Interest expense of the bond funds decreased 0.9% to \$72.1 million compared to the prior year as a result of a smaller amount of long-term outstanding debt and a decrease in the interest rate on debt issued during fiscal year 2015.

In fiscal year 2015 the agency changed the presentation of interest expense of the bond funds. Before fiscal year 2014 this number included financing costs which consists of variable rate debt fees, bond financing costs, bond discount expense, hedge pair-off expense allocated, hedge pair-off expense un-allocated, and swap termination fees. The financial statements for fiscal year 2015 as well as the comparative statements for fiscal year 2014 now show financing costs as a separate line item. The combination of the two lines increased 10% to \$86.9 million. The majority of the increase is due to hedging pair off cost associated with the MBS securitization in the Residential Housing Finance and Homeownership Finance resolutions.

Expenses for loan administration and trustee fees in the bond funds decreased by 14% to \$4.5 million compared to the prior fiscal year. Of the total administrative reimbursement revenue in General Reserve of \$20.1 million, the interfund charge to the bond funds and State Appropriated fund of \$19.4 million was eliminated for purposes of financial reporting in the Agency-wide financial statements.

Salaries and benefits in General Reserve of \$20.5 million decreased 2% from the prior year. Other general operating expense in General Reserve and bond funds increased 18% to \$10.6 million compared to the prior fiscal year. The majority of the increase relates to contract expenses for the 3 major system projects.

Reductions in carrying value of certain low interest rate deferred loans in the bond funds increased 19% to \$1.6 million. The increase related to increased disbursements of deferred subordinated multifamily loans plus repayments of deferred subordinated multifamily loans disbursed in prior fiscal years.

Provision for loan loss expense in the bond funds decreased \$1.7 million or 746% to \$(1.5) million. The provision for loan loss expense for the homeownership loan portfolio increased \$0.6 million because the delinquencies increased slightly. The provision for loan loss expense for the home improvement loan portfolio increased \$0.2 million as a result of increased loan delinquencies during the year, a portion of which became inactive loans. The provision for loan loss expense for the homeownership down payment assistance loan portfolio was essentially unchanged from the prior fiscal year. The provision for loan loss expense for the multifamily loan portfolio decreased \$2.4 million as a large multifamily development was able to be removed from the watchlist, when compared to the prior fiscal year.

Non-operating transfers occur as a result of bond sale contributions related to new debt issues, the periodic transfer of assets to maintain the Housing Endowment Fund (Pool 1) requirement, periodic fiscal year end transfers to the Housing Affordability Fund (Pool 3), if any, and periodic transfers from the bond funds of amounts in excess of bond resolution requirements. During fiscal year 2015, \$6.7 million of Pool 1 funds in excess of requirements were transferred to Pool 2. \$22.3 million was transferred from Pool 2 to

MINNESOTA HOUSING FINANCE AGENCY

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

General Reserve and Bond Funds—Revenues over Expenses (continued)

Pool 1 to reimburse the fund for the adjustment to beginning net position as required by GASB 68 and 71. Revenues over expenses in General Reserve that are in excess of the Pool 1 requirement are transferred periodically to Pool 2 for use in housing programs. Pool 2 also recorded a \$10.0 million contribution to Pool 3 to be used for highly subsidized housing programs. Revenues over expenses plus non-operating transfers in Pool 2 may be transferred periodically, with approval of the Board, to Pool 3 for use in more highly subsidized housing programs. Board investment guidelines establish required balances for Pool 1 and Pool 2. In addition, Pool 2 made \$19.5 million in bond sale contributions to the Homeownership Finance bond fund.

Combined revenues over expenses, including unrealized gains and losses for General Reserve and the bond funds, decreased \$7.9 million to \$30.3 million when compared to the prior fiscal year. After removing the effects of unrealized gains and losses and Pool 3 revenues and expenses, the combined revenues over expenses decreased 5.2% to \$24.6 million.

Total combined net position of General Reserve and bond funds increased 1% to \$817.8 million as of June 30, 2015. A portion of that increase is a result of current year unrealized gains on investments, without which the combined net position would have increased 1.8%. The net position of each individual bond fund increased. Pool 2, which resides in Residential Housing Finance, decreased because of its \$10.0 million contribution to Pool 3 and its \$22.3 million contribution to Pool 1. After the \$6.7 million transfer of Pool 1 excesses to Pool 2, and the \$22.3 million transfer back to Pool 1 the net position of General Reserve decreased \$2.5 million as a result of a \$1.6 million decrease in the Pool 1 requirement (which resides in General Reserve) which, in turn, was caused by a decrease in the balance of outstanding loans on which its requirement is based, netted against a \$0.9 million increase in the balance of Invested in Capital Assets.

State and Federal Appropriated Funds—Statement of Net Position

Assets of the appropriated funds are derived from the appropriation of funds by the State of Minnesota and funds made available to Minnesota Housing by the federal government for housing purposes. Housing preservation and development typically requires appropriations received in the current period to be expended over several future years of planned development. This timing difference is the primary reason for the presence of investments, cash, and cash equivalent assets in the appropriated funds and for the balance of net position restricted by law.

Investments, cash, and cash equivalents combined are the largest category of assets in the appropriated funds. The June 30, 2015 combined balance increased 25% to \$143.6 million as a result of the combined appropriations received and other revenues exceeding the combined disbursements for programs, loans and expenses during the fiscal year.

Certain state appropriations are expended as housing loans which are in a first lien position and with near- or below-market interest rates, resulting in net loans receivable. At June 30, 2015 State Appropriated fund net loans receivable increased 1% to \$36.6 million, reflecting higher net loan program activity.

Interest receivable in appropriated funds is a function of the timing of interest payments and the general level of interest rates on investments. Interest receivable on appropriated funds at June 30, 2015 decreased 17% to \$0.2 million.

Accounts payable and other liabilities represent amounts payable for HUD's share of savings from certain debt refinancing activities and accrued expenses for federal and state housing programs. The balance payable at June 30, 2015 was \$3.8 million compared to \$1.5 million at June 30, 2014. The increase in accounts payable and other liabilities is largely attributable to a \$2.1 million increase in federal Home programs' accrued year-end expenses.

Interfund payable occurs in the Federal Appropriated fund as a result of overhead expense and indirect cost recoveries owed to General Reserve. Interfund payable occurs in the State Appropriated fund because of accrued overhead expense payable to General Reserve. At June 30, 2015 the combined net interfund payable was \$1.0 million.

MINNESOTA HOUSING FINANCE AGENCY

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

State and Federal Appropriated Funds— Statement of Net Position (continued)

At June 30, 2015 the balance of funds held for others was \$50 million. Of that amount, \$49.9 million is comprised of the proceeds of appropriation-backed housing bonds which are held for disbursement to certain multifamily affordable housing developments. The remaining balance of funds held for others consists mainly of excess federal housing assistance payments received for administration of the Section 8 program and the interest income earned on those unexpended funds. The prior year balance of funds held for others is comparatively much smaller because of this year's issuance of appropriation-backed housing bonds.

The entire net position of the appropriated funds is restricted by law for use with housing programs only and is not pledged or available to secure bonds issued under any of the Agency's bond funds or other obligations of the Agency or its general obligation pledge in respect thereof. The combined net position of the appropriated funds decreased to \$128.4 million as of June 30, 2015, reflecting that combined expenses exceeded receipts and revenues during fiscal year 2015.

State and Federal Appropriated Funds— Revenues over Expenses

State and Federal Appropriated funds are recorded as revenue in the period in which such appropriations are earned. Funds are spent for eligible program activities as defined by Minnesota Housing, the State of Minnesota or agencies of the federal government. Unexpended appropriations are invested and the interest income on the investments is recorded as it is earned, except for interest earned on certain unexpended federal appropriations, which is recorded as funds held for others. Similarly, interest income on certain State Appropriated fund loan receivables is recorded as it is earned.

The largest revenue category is appropriations received, and is a function of the fiscal, legislative, and political environment of the State of Minnesota and the federal government. The combined appropriations received decreased from \$252.8 million in fiscal year 2014 to \$245.1 million in fiscal year 2015. Federal appropriations received increased by \$.1 million, mostly due to an increase in funding for the HOME program. State appropriations received decreased by a net \$7.7 million due to a \$2.2 million increase in Housing Infrastructure Bonds issued against a \$10.5 reduction in appropriations received for the Economic Development and Housing Challenge program and the HECAT program.

The combined interest income from investments increased 1.2% to \$1.2 million for fiscal year 2015.

Loan interest income from State Appropriations loan assets continues to be minimal at \$0.5 million as relatively few loans bear interest.

Fees earned and other income in the amount of \$2.2 million were recorded in the State Appropriated fund during fiscal year 2015. This consisted mainly of private donations and the receipt of interagency transfers to support certain state housing programs.

Unrealized gains or losses on investments are recorded to reflect current market valuations of investments, and may be reversed over time as investments are held. Combined unrealized gains of \$0.02 million were recorded at June 30, 2015 compared to \$0.6 million of unrealized losses at June 30, 2014.

Administrative reimbursements to General Reserve of overhead expenses to administer State Appropriated fund programs increased 10.4% to \$1.2 million compared to the prior fiscal year. The Agency incurs the overhead expense in General Reserve. General Reserve is reimbursed for these overhead expenses by the State Appropriated fund to the extent of investment earnings on unexpended state appropriations. During fiscal year 2015 investment earnings in the State Appropriated fund were insufficient to reimburse all of the overhead expenses incurred in General Reserve for State Appropriated programs during this fiscal year.

Combined appropriations disbursed increased 2.3% to \$227.1 million compared to the prior fiscal year, reflecting State Appropriations disbursed of \$33.0 million and federal appropriations disbursed of \$194.1 million.

Increased expenditures of State Appropriated funds for fully-reserved below-market and zero-percent interest rate loans resulted in higher expense from reductions in carrying value of certain loans. Net reductions of carrying value increased 91% to \$19.5 million compared to the prior fiscal year.

MINNESOTA HOUSING FINANCE AGENCY

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

State and Federal Appropriated Funds— Revenues over Expenses (continued)

Other general operating expenses in the State Appropriation fund represent fees for professional and technical support to implement and administer certain housing programs. Other general operating expenses in the State Appropriation fund increased 11.2% to \$2.1 million at June 30, 2015.

Combined expenditures were greater than combined revenue of the appropriated funds by \$1.7 million at June 30, 2015. Ultimately, the entire State and Federal Appropriated funds' net position will be expended for housing programs.

Significant Long Term Debt Activities

Minnesota Housing issues a significant amount of bonds, having outstanding at June 30, 2015 long-term bonds totaling \$2,033.3 million. Bond proceeds and related revenues are held by a trustee, who is responsible for administration of bond resolution requirements including payment of debt service. The bond resolutions may require funding debt service reserve accounts and insurance reserve accounts. At June 30, 2015, amounts held by the trustee in principal, interest, redemption, and reserve accounts represented full funding of those requirements as of that date.

Minnesota Housing continually investigates and utilizes financing and debt management techniques designed to achieve its goals of reducing interest expense and efficiently utilizing bonding authority while managing risk and responding to changing capital markets. During 2015 fiscal year, Minnesota Housing issued nine series of bonds aggregating \$453.0 million (excluding appropriation-backed housing bonds, conduit bonds, and short-term borrowing against a line of credit), compared to the issuance of twelve series totaling \$221.9 million the previous fiscal year. Long-term bonds are issued as capital is needed for program purposes and as opportunities arise to economically refund outstanding bonds. Short-term bonds and notes and other indebtedness may be issued to preserve tax-exempt bonding authority for future program use and to warehouse purchases of mortgage-backed securities in advance of permanent financing. In the past, the Agency has converted a portion of its bonding authority to Mortgage Credit Certificate authority in another effort to support first-time homebuyers.

A total of \$445.4 million in bond principal repayments and \$86.9 million of bond-related interest expense occurred during fiscal year 2015. Of the total bond principal repayments, \$370.9 million were repayments made on bonds prior to the scheduled maturity date using a combination of optional and special redemption provisions.

Most of the bonds issued by Minnesota Housing bear interest that is not includable in gross income for federal and State of Minnesota income taxation, in accordance with requirements of the federal Internal Revenue Code and Treasury regulations governing either qualified mortgage bonds or bonds issued to provide qualified residential rental projects. Minnesota Housing's ability to issue tax-exempt debt is limited by its share of the state's allocation of private activity volume cap, which is established by Minnesota statutes. Minnesota Housing's ability to issue tax-exempt debt is also limited by a provision in the Internal Revenue Code (commonly known as the 10-year rule) that prohibits refunding of mortgage repayments and prepayments received more than ten years after the date of issuance of the bonds that financed such mortgage loans.

While most of the Agency's bonds are tax-exempt, taxable bonds have been issued to supplement limited tax-exempt authority in order to meet demand for mortgage loans, although that did not occur during fiscal year 2015. Taxable bonds may also be issued to refund existing debt or to finance lending programs where federal tax-exempt bond restrictions are inconsistent with program goals. One series of bonds was issued for the latter purpose in fiscal year 2015. Variable-rate bonds and interest-rate swaps were incorporated into Minnesota Housing's financings from fiscal year 2003 through fiscal year 2010, enabling the Agency to provide below-market mortgage financing at synthetically fixed interest rates. Interest-rate swaps help to hedge the mismatch between fixed-rate loans and variable-rate bonds. (See Interest Rate Swaps under the notes to the financial statements for further discussion of interest-rate swaps and their risks.)

The Agency also had outstanding at June 30, 2015 certain conduit bonds and appropriation-backed housing bonds which are not payable from any funds of the Agency (other than from funds received specifically to pay debt service on those bonds) and which are discussed in the notes to the financial statements. Board

MINNESOTA HOUSING FINANCE AGENCY

Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Significant Long Term Debt Activities (continued)

policy governs the process Minnesota Housing follows to issue and manage debt. State statute limits total outstanding bonds and notes of Minnesota Housing to \$5.0 billion.

At June 30, 2015 Minnesota Housing's issuer ratings were "AA+" and "Aa1" from Standard and Poor's Ratings Services and Moody's Investors Service, Inc., respectively. Minnesota Housing's credit ratings are separate from, and are not directly dependent on, ratings on debt issued by the State of Minnesota. Ongoing reporting to and communications with the bond rating agencies are priorities for the Agency.

Significant Factors that May Affect Financial Conditions and/or Operations

Legislative Actions

The primary purpose of the Legislative session in odd-numbered years is to enact a two-year state budget. Minnesota Housing's state appropriated budget was passed as part of a Special Session on June 12, 2015. The Special Session was called following the Governor's veto of three budget bills, one of which included Minnesota Housing's state appropriated budget.

Minnesota Housing's total state appropriations for the state fiscal year 2016-17 biennium are \$104,596,000. This is a \$3 million increase over FY2014-15 funding levels. In addition to funding the agency's state programs at base budget level, the FY2016-17 budget includes a \$2.5 million increase to the Bridges program, which provides rental assistance for households in which at least one adult member has a serious mental illness. The budget also includes two one-time appropriations:

- \$2 million for the Housing and Job Growth Initiative, which provides funding for housing development in communities where employers are poised to expand but there is not enough housing for the local workforce;
- \$2 million for the Rental Assistance for Highly Mobile Students Initiative, which provides rental assistance to families with school-aged children who have moved frequently.

While Capital investment bills are not the focus of legislative sessions in odd-numbered years, the Legislature does typically pass a small bonding bill. This year the bonding bill authorized Minnesota Housing to issue \$10 million in Housing Infrastructure Bonds. Housing Infrastructure Bond proceeds can be used for four purposes:

- to construct or acquire and rehabilitate housing that will be used as permanent supportive housing for those who have experienced homelessness,
- to preserve existing federally-assisted housing,
- to acquire and rehabilitate foreclosed rental housing or for new construction of rental housing on parcels that have been foreclosed, or
- to acquire the land that will be held by a community land trust for single family owner-occupied housing.

The Housing Infrastructure Bond proceeds will be awarded as part of Minnesota Housing's consolidated Request for Proposal in 2015.

The 2015 legislative session did not include any policy changes to Minnesota Housing's state-appropriated programs.

Additional Information

Questions and inquiries may be directed to Mr. Terry Schwartz at Minnesota Housing Finance Agency, 400 Sibley Street, Suite 300, St. Paul, MN 55101 (651-296-7608 or 800-657-3769 or if T.T.Y. 651-297-2361)

MINNESOTA HOUSING FINANCE AGENCY

Notes to Financial Statements

Year ended June 30, 2015

Nature of Business and Fund Structure

The Minnesota Housing Finance Agency (the Agency or Minnesota Housing) was created in 1971 by the Minnesota legislature through the enactment of Minnesota Statutes, Chapter 462A, which has been amended from time to time. The Agency was established to facilitate the construction and rehabilitation of housing in Minnesota for families of low- and moderate-income by providing mortgage loans, development loans, and technical assistance to qualified housing sponsors. The Agency, as a special purpose agency engaged in business-type activities, is a component unit of the State of Minnesota, and is reflected as a proprietary fund in the state's comprehensive annual financial report. The Agency receives appropriations from the state legislature, substantially all of which are used to make loans or grants under specified programs. The Agency also receives funds from the federal government and other entities for similar program purposes.

The Agency is authorized to issue bonds and notes to fulfill its corporate purposes up to a total outstanding amount of \$5.0 billion and to incur other indebtedness. None of the bonds, notes or other indebtedness is a debt of the State of Minnesota or any political subdivision thereof.

The following describes the funds maintained by the Agency, which are included in this report, all of which conform to the authorizing legislation and bond resolutions:

General Reserve

General Reserve was established in fulfillment of the pledge by the Agency of its full faith and credit to the payment of its general obligation bonds in its bond resolutions. Administrative costs of the Agency and multifamily development escrow receipts and related disbursements are recorded in this account. The net position of General Reserve is available to support the following funds which are further described below: Rental Housing, Residential Housing Finance, Homeownership Finance and Multifamily Housing. Also described below is the HOMESSM fund which carries limited obligations of the Agency and is therefore not supported by General Reserve.

Rental Housing

Activities relating to bond-financed multifamily housing programs are maintained under the Rental Housing bond resolution. Loans are generally secured by first mortgages on real property. The Rental Housing bond resolution prescribes the application of bond proceeds, debt service requirements of the bond indebtedness, permitted investments, and eligible loans to be financed from the bond proceeds.

Residential Housing Finance

Included within Residential Housing Finance are the bond funds, which include bonds issued and outstanding under the Residential Housing Finance bond resolution and the Alternative Loan Fund which consists of the Housing Investment Fund (Pool 2) and the Housing Affordability Fund (Pool 3). All of these funds are restricted by a covenant with bondholders as to their use.

The bond resolution within Residential Housing Finance, along with the Homeownership Finance bond resolution, were the principal sources of financing for bond-financed homeownership programs (see Homeownership Finance below). Bonds were issued for the purpose of funding purchases of single family first mortgage loans, mortgage-backed securities backed by single family mortgage loans, some related entry cost housing assistance loans, and subordinated home improvement loans. The majority of the single family first mortgage loans financed by these bond issues are insured by private mortgage insurers or the Federal Housing Administration (FHA) or guaranteed by the U.S. Department of Veterans Affairs (VA) or the U.S. Department of Agriculture Rural Development (RD). Assets financed by the bonds issued and outstanding under the Residential Housing Finance bond resolution are pledged to the repayment of Residential Housing Finance bonds.

The Alternative Loan Fund has been established in Residential Housing Finance and residing therein are two sub funds: Housing Investment Fund (Pool 2) and Housing Affordability Fund (Pool 3). Funds deposited therein would otherwise be available to be transferred to General Reserve. The Alternative Loan Fund is not pledged to the payment of the Residential Housing Finance bonds or any other debt obligation of the Agency

MINNESOTA HOUSING FINANCE AGENCY

Notes to Financial Statements

Year ended June 30, 2015 (continued)

Nature of Business and Fund Structure (continued)

but, to the extent that funds are available therein, is available to honor the general obligation pledge of the Agency.

Assets of the Housing Investment Fund (Pool 2) consist of investment quality housing loans, as defined by the Agency, and investment grade securities. During fiscal year 2015 this fund provided capital for several Agency programs including its home improvement loan program and its multifamily first-mortgage loan program. It also provided capital for warehousing purchases of mortgage-backed securities secured by single family first mortgage loans before these securities are permanently financed by issuing bonds, or sold into the TBA market. In addition, it provided capital for amortizing second lien homeownership loans made in conjunction with the Agency's single family first mortgage loans, for tax credit bridge loans, for loans to partner organizations to acquire, rehabilitate and sell foreclosed homes and to develop new affordable housing, and bond sale contributions. The fund may also provide interim financing for construction and rehabilitation of single family housing and may be used to advance funds to retire Agency high interest-rate debt.

Assets of the Housing Affordability Fund (Pool 3) consist of investment-grade securities when not utilized for program purposes. Program purposes include, but are not limited to: no-interest loans; loans at interest rates substantially below market, high risk loans, deferred loans, revolving funds, and grants. During fiscal year 2014 funds from Pool 3 were used for entry cost assistance for first-time homebuyers, below-market interim financing for construction and rehabilitation of single family housing, capital costs and rental assistance for permanent supportive housing, advances for certain multifamily housing developments in anticipation of permanent funding through state appropriation-backed housing bonds, and deferred, subordinated multifamily loans.

The Residential Housing Finance bond resolution prescribes the application of bond proceeds, debt service requirements of the bond indebtedness, permitted investments, and eligible loans to be financed from the bond proceeds.

Homeownership Finance

This bond resolution was originally adopted for the purpose of issuing mortgage revenue bonds under the United States Treasury's Single Family New Issue Bond Program (NIBP). Non-NIBP mortgage revenue bonds, which also meet resolution requirements, have also been issued under this resolution. Bonds issued under this resolution fund mortgage-backed securities backed by single family mortgage loans. These securities are guaranteed as to payment of principal and interest by either the Government National Mortgage Association or the Federal National Mortgage Association.

Home Ownership Mortgage-backed Exempt Securities (HOMESSM)

This bond indenture implements a program developed by the investment banking division of a major bank whereby the Agency issues and sells to the investment bank limited obligations of the Agency (HOMESSM certificates), each secured by a mortgage-backed security guaranteed by FNMA or GNMA. The HOMESSM Certificates are not secured by the general obligation pledge of the Agency and are not protected by the moral obligation backing from the State of Minnesota.

Multifamily Housing

This bond resolution was adopted for the purpose of issuing multifamily housing bonds under the United States Treasury's Multifamily New Issue Bond Program. Bonds were issued during a prior fiscal year for one rental housing project.

State Appropriated

The State Appropriated fund was established to account for funds received from the Minnesota legislature which are to be used for programs for low- and moderate-income persons and families in the form of low-interest loans, no-interest deferred loans, low-interest amortizing loans, debt service and other costs associated with appropriation-backed housing bonds, and other housing-related program costs. The net

MINNESOTA HOUSING FINANCE AGENCY

Notes to Financial Statements

Year ended June 30, 2015 (continued)

Nature of Business and Fund Structure (continued)

position of the State Appropriated fund is not pledged or available to secure bonds issued under any of the Agency's bond funds or creditors of the Agency.

Federal Appropriated

The Federal Appropriated fund was established to account for funds received from the federal government which are to be used for programs for low- and moderate-income persons and families in the form of no-interest deferred loans and grants in support of foreclosure counseling and remediation efforts, assistance to tax credit developments and other housing-related program costs. The net position of the Federal Appropriated fund is not pledged or available to secure bondholders or creditors of the Agency.

Summary of Significant Accounting Policies

The following is a summary of the more significant accounting policies.

Basis of Accounting

The Agency's financial statements have been prepared on the accrual basis utilizing the proprietary fund concept which pertains to financial activities that operate in a manner similar to private business enterprises and are financed through fees and charges assessed primarily to the users of the services.

Generally Accepted Accounting Principles

Since the business of the Agency is essentially that of a financial institution having a business cycle greater than one year, the statement of net position is not presented in a classified format.

New Accounting Pronouncements

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. The provisions of this Statement are effective for the Agency's fiscal year ending June 30, 2015. The provisions of statement were adopted for fiscal year ended June 30, 2015. The effects on the agency financials are as follows: The beginning net position was adjusted by \$22.380 million, a net pension liability of \$9.313 million was added, deferred pension expense of \$1.042 million and a deferred pension credit of \$11.821 million were added. Details can be found in the footnote for Pension. With respect to the comparative information as of and for the year ended June 30, 2014, 2014 balances could not be restated as information required to adopt the standard is not available to the Agency.

In November 2013, the GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68*. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or non employer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The provisions of this Statement are required to be applied simultaneously with the provisions of Statement 68. The provisions of this Statement are effective for the Agency's fiscal year ending June 30, 2015. The provisions of statement were adopted for fiscal year ended June 30, 2015. The effects on the agency financials are as follows: The beginning net position was adjusted by \$22.380 million, a net pension liability of \$9.313 million was added, deferred pension expense of \$1.042 million and a deferred pension credit of \$11.821 million were added. Details can be found in the footnote for Pension. With respect to the comparative information as of and for the year ended June 30, 2014, 2014 balances could not be restated as information required to adopt the standard is not available to the Agency.

MINNESOTA HOUSING FINANCE AGENCY

Notes to Financial Statements

Year ended June 30, 2015 (continued)

Summary of Significant Accounting Policies (continued)

In June 2015, the GASB issued Statement No. 73 *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits with regard to providing decision-useful information, supporting assessments of accountability and inter period equity, and creating additional transparency. This Statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, *Accounting and Financial Reporting for Pensions*, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also amends certain provisions of Statement No. 67, *Financial Reporting for Pension Plans*, and Statement 68 for pension plans and pensions that are within their respective scopes. The requirements of this Statement extend the approach to accounting and financial reporting established in Statement 68 to all pensions, with modifications as necessary to reflect that for accounting and financial reporting purposes, any assets accumulated for pensions that are provided through pension plans that are not administered through trusts that meet the criteria specified in Statement 68 should not be considered pension plan assets. It also requires that information similar to that required by Statement 68 be included in notes to financial statements and required supplementary information by all similarly situated employers and non employer contributing entities. This Statement also clarifies the application of certain provisions of Statements 67 and 68 with regard to the following issues:

Information that is required to be presented as notes to the 10-year schedules of required supplementary information about investment-related factors that significantly affect trends in the amounts reported.

Accounting and financial reporting for separately financed specific liabilities of individual employers and non employer contributing entities for defined benefit pensions.

Timing of employer recognition of revenue for the support of non employer contributing entities not in a special funding situation.

The requirements of this Statement that address accounting and financial reporting by employers and governmental non employer contributing entities for pensions that are not within the scope of Statement 68 are effective for financial statements for fiscal years beginning after June 15, 2016, and the requirements of this Statement that address financial reporting for assets accumulated for purposes of providing those pensions are effective for fiscal years beginning after June 15, 2015. The requirements of this Statement for pension plans that are within the scope of Statement 67 or for pensions that are within the scope of Statement 68 are effective for fiscal years beginning after June 15, 2015. Earlier application is encouraged.

In June 2015, the GASB issued Statement No. 74 *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter period equity, and creating additional transparency. This Statement replaces Statements No. 43, *Financial Reporting for Post-employment Benefit Plans Other Than Pension Plans*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as amended, Statement 43, and Statement No. 50, *Pension Disclosures*. Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, establishes new accounting and financial reporting requirements for governments whose employees are provided with OPEB, as well as for certain non employer governments that have a legal obligation to provide financial support for OPEB provided to the

MINNESOTA HOUSING FINANCE AGENCY

Notes to Financial Statements

Year ended June 30, 2015 (continued)

Summary of Significant Accounting Policies (continued)

employees of other entities. The scope of this Statement includes OPEB plans—defined benefit and defined contribution—administered through trusts that meet the following criteria:

Contributions from employers and non employer contributing entities to the OPEB plan and earnings on those contributions are irrevocable.

OPEB plan assets are dedicated to providing OPEB to plan members in accordance with the benefit terms.

OPEB plan assets are legally protected from the creditors of employers, non employer contributing entities, and the OPEB plan administrator. If the plan is a defined benefit OPEB plan, plan assets also are legally protected from creditors of the plan members.

This Statement also includes requirements to address financial reporting for assets accumulated for purposes of providing defined benefit OPEB through OPEB plans that are *not* administered through trusts that meet the specified criteria. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016. Earlier application is encouraged.

In June 2015, the GASB issued Statement No. 75 *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter period equity, and creating additional transparency. This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans. The scope of this Statement addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this Statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed. In addition, this Statement details the recognition and disclosure requirements for employers with payables to defined benefit OPEB plans that are administered through trusts that meet the specified criteria and for employers whose employees are provided with defined contribution OPEB. This Statement also addresses certain circumstances in which a non employer entity provides financial support for OPEB of employees of another entity. In this Statement, distinctions are made regarding the particular requirements depending upon whether the OPEB plans through which the benefits are provided are administered through trusts that meet the following criteria: Contributions from employers and non employer contributing entities to the OPEB plan and earnings on those contributions are irrevocable. OPEB plan assets are dedicated to providing OPEB to plan members in accordance with the benefit terms. This Statement is effective for fiscal years beginning after June 15, 2017. Earlier application is encouraged.

In June 2015, the GASB issued Statement No. 76 *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The objective of this Statement is to identify—in the context of the current governmental financial reporting environment—the hierarchy of generally accepted accounting principles (GAAP). The “GAAP hierarchy” consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and non authoritative literature in the event that the accounting

MINNESOTA HOUSING FINANCE AGENCY

Notes to Financial Statements

Year ended June 30, 2015 (continued)

Summary of Significant Accounting Policies (continued)

treatment for a transaction or other event is not specified within a source of authoritative GAAP. This Statement supersedes Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2015, and should be applied retroactively. Earlier application is permitted.

OPEB plan assets are legally protected from the creditors of employers, non employer contributing entities, the OPEB plan administrator, and the plan members.

Cash and Cash Equivalents

Cash equivalents may include commercial paper, money market funds, repurchase agreements, State investment pool holdings and any other investments, primarily U.S. treasury and agency securities, that have 90 or less days remaining to maturity at the time of purchase. Investment agreements are also classified as cash and cash equivalents.

Investments- Program Mortgage-backed Securities and Investment Securities- Other

The Agency generally carries investment securities at fair market value. Unrealized gains and losses on investment securities resulting from changes in market valuation are generally recorded as revenue. However, unrealized gains and losses on investments of multifamily development escrow funds resulting from changes in market valuation, as well as unrealized gains and losses on MBS held in the HOMESSM fund, are recorded as funds held for others. Mortgage-backed securities held for sale are carried at the lower of cost or market. Investments- program mortgage-backed securities, as previously described, are shown separately on the statement of net position.

Loans Receivable, Net

Loans receivable are carried at their unpaid principal balances, net of an allowance for loan losses.

The allowances for loan losses are established based on management's evaluation of the loan portfolio.

Generally, the Agency provides an allowance for loan losses for multifamily loans after considering the specific known risks: adequacy of collateral and projected cash flows; past experience; amount of federal or state rent subsidies, if any; the status and amount of past due payments, if any; the amount of deferred maintenance, if any; and current economic conditions.

For homeownership and home improvement loans, the Agency establishes varying amounts of reserves depending upon the number of delinquent loans, the estimated amount of loss per delinquent loan, the number of days delinquent and the type of insurance coverage in force, if any: FHA insurance, RD guarantee, VA guarantee, or private mortgage insurance.

Actual gains and losses are posted to allowance for loan losses. Management believes the allowances for loan losses adequately reserve for probable losses inherent in the loan portfolios as of June 30, 2015.

Interest Receivable on Loans and Program Mortgage-Backed Securities

The Agency accrues interest on its amortizing loans until they become 90 days or more delinquent in the case of multifamily loans, until they become "real estate owned" (described below) for homeownership loans, or until they are classified by the Agency as inactive for home improvement loans.

FHA/VA Insurance Claims Receivable, Net

Mortgages that are FHA insured or VA guaranteed, and for which insurance claims have been filed, are included in this category. FHA/VA insurance claims receivable, net is carried at its estimated realizable value.

Real Estate Owned, Net

Real estate acquired through foreclosure is recorded at the lower of the investment in the loan or estimated fair market value less estimated selling costs. These properties may be RD guaranteed, uninsured or have private mortgage insurance. Real estate owned, net is carried at its estimated realizable value.

MINNESOTA HOUSING FINANCE AGENCY

Notes to Financial Statements

Year ended June 30, 2015 (continued)

Summary of Significant Accounting Policies (continued)

Deferred Loss on Interest Rate Swap Agreements

The Agency's interest rate swap agreements have a negative fair value as of the end of fiscal year 2015. Because these agreements have been determined to be effective hedges under applicable accounting guidance, the negative fair value is recorded as a deferred loss.

Deferred Pension Expense and Credits

The deferred inflows and outflows of pension resources are amounts used under GASB statement No. 68 in developing the annual pension expense. They arise with differences between expected and actual experience; changes of assumptions. The portion of these amounts not included in pension expense should be included in the deferred inflows or outflows of resources.

Bonds Payable

Bonds payable are carried at their unpaid principal balances.

Interest Rate Swap Agreements

Because the Agency's interest rate swap agreements have a negative fair value as of the end of fiscal year 2015 and they have been determined to be effective hedges under the applicable accounting guidance, they are recorded here as a liability.

Net Pension Liability

The Net Pension Liability is the liability of employers and non-employer contribution entities to plan members for benefits provided through a defined benefit pension plan.

Pension

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Minnesota State Retirement System (MSRS) and additions to/deductions from MSRS's fiduciary net position have been determined on the same basis as they are reported by MSRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Inter fund Payable (Receivable)

Inter fund payable (receivable) primarily reflects pending transfers of cash and assets between funds. The more significant activities that flow through this fund may include funds advanced for purposes of optionally redeeming bonds when economically advantageous; funds advanced for loan warehousing; administrative fees receivable and payable between funds; non-operating transfers among the Housing Endowment Fund (Pool 1), the Housing Investment Fund (Pool 2), and the Housing Affordability Fund (Pool 3); and certain mortgage payments received but not yet transferred to their respective funds.

Funds Held for Others

Funds Held for Others are primarily escrow amounts held by the Agency on behalf of multifamily housing developments where the Agency holds the first mortgages. These amounts are held under the terms of the related loans and federal regulations regarding subsidized housing. Investment income relating to these funds is credited directly to the escrow funds and is not included in the investment income of General Reserve.

Undisbursed proceeds of state appropriation-backed housing bonds are recorded in Funds Held for Others until disbursed for their intended purpose.

Also included in funds held for others are unrealized gains and losses on investments of the multifamily housing development escrow fund investments, unrealized gains and losses on the mortgage-backed

MINNESOTA HOUSING FINANCE AGENCY

Notes to Financial Statements

Year ended June 30, 2015 (continued)

Summary of Significant Accounting Policies (continued)

securities supporting HOMESSM certificates, and funds held for, and reimbursable to, HUD, such as Section 8 payments. In addition, investment income on unspent Section 8 funds is credited directly to Funds Held for Others and not included in the investment income of Federal Appropriated.

Deferred Revenue- Service Release Fees

The Agency's master servicer pays the Agency a fee for the right to service the loans backing mortgage-backed securities that are purchased and retained by the Agency. These fees are initially recorded as deferred inflows of resources and then amortized to Fees Earned and Other Income using the effective interest method over the expected life of the loans.

Restricted by Bond Resolution

The Restricted by Bond Resolution portion of Net Position represents the amount restricted within the respective bond resolution due to the specific provisions of the bond resolutions.

Restricted by Covenant

The Restricted by Covenant portion of Net Position represents those assets in General Reserve and those assets that would otherwise be available to be transferred to General Reserve under the applicable bond resolutions. Under the Agency's bond resolutions, the Agency covenants that it will use the assets in General Reserve only for the administration and financing of programs in accordance with the policy and purpose of Minnesota Housing's enabling legislation, including reserves for the payment of bonds and notes and of loans made from the proceeds thereof, and will accumulate and maintain therein such balance of funds and investments as will be sufficient for the purpose. The Agency's Board establishes investment guidelines for these funds.

Restricted by Law

Undisbursed, recognized federal and state appropriations are classified as restricted by law.

Invested in Capital Assets

This represents the balance of capital assets, net of depreciation. No related debt exists.

Agency-wide Total

The Agency-wide Total columns reflect the totals of the similar accounts of the various funds. Since the assets of certain of the funds are restricted by either the related bond resolutions or legislation, the totaling of the accounts, including assets therein, is for convenience only and does not indicate that the combined assets are available in any manner other than that provided for in either the bond resolutions, Board resolutions or the legislation for the separate funds or groups of funds. The totals for fiscal year 2014 are for comparative purposes only.

Administrative Reimbursement

The largest source of funding for the Agency's administrative operations is a monthly transfer from each of the bond funds to General Reserve based on adjusted assets. Adjusted assets are defined as total assets excluding the reserve for loan loss, proceeds of limited obligation debt and unrealized appreciation and depreciation on investments including all mortgage-backed securities. Additional funding for the Agency's administrative operations is provided by a monthly transfer from Residential Housing Finance Pool 2 based on a portion of the net gain on the sale of mortgage-backed securities held for sale.

For programs funded by state appropriations, the Agency recovers the cost of administering the programs but only to the extent of interest earnings on unexpended state appropriations.

For programs funded by federal appropriations, the Agency recovers the cost of administering programs through an approved federal indirect cost recovery rate but only to the extent that funds are available. Certain

MINNESOTA HOUSING FINANCE AGENCY

Notes to Financial Statements

Year ended June 30, 2015 (continued)

Summary of Significant Accounting Policies (continued)

other direct costs are also recovered. Total direct and indirect costs recovered from the federal government in the amount of \$0.647 million are reflected as administrative reimbursement revenues in the General Reserve.

Administrative reimbursements in the amount of \$19.468 million between the Agency's funds have been eliminated from the respective administrative reimbursement revenues and expenses line items for purposes of presentation in the Agency-wide statement of activities.

Fees Earned and Other Income

Fees earned and other income consists mainly of fees related to the financing and administration of Section 8 properties, including administration of a HUD-owned Section 8 portfolio, acquisition fees earned from the sale of mortgage servicing rights, fees in connection with operating the federal Low Income Housing Tax Credits program, annual fees related to certain multifamily housing development loans, fees from the Low Income Rental Classification program, private contributions restricted to use in the Agency's Homeownership Education, Counseling and Training Program, housing development operating subsidies received from other state agencies, fees received for reimbursement for the cost of issuance for certain bonds, and fees for issuing and monitoring conduit bonds. Fees earned and other income is recorded as it is earned.

Reduction in Carrying Value of Certain Low-Interest Rate Deferred Loans

The carrying value of certain Housing Affordability Fund (Pool 3) loans and State Appropriated loans which are originated at below market interest rates and for which repayment is deferred for up to 30 years, is written down to zero at the time of origination by providing for a Reduction in Carrying Value of Certain Low Interest Rate Deferred Loans because of the nature of these loans and the risks associated with them. Certain of these loans may be forgiven at maturity.

Other Changes

The Agency utilizes the Other Changes section of the Statement of Revenues, Expenses and Changes in Net Position to describe various non-operating transfers of assets between funds.

Non-operating Transfer of Assets Between Funds

Non-operating transfers occur as a result of bond sale contributions related to new debt issues; transfers between the Housing Endowment Fund (Pool 1), the Housing Investment Fund (Pool 2), and the Housing Affordability Fund (Pool 3) to maintain the Pool 1 required balance; and periodic transfers from the bond funds of assets in excess of bond resolution requirements.

Non-Cash Activities

Transfers from loans receivable to FHA/VA insurance claims receivable and real estate owned for fiscal year 2015 were \$24.0 million in Residential Housing Finance.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, deferred inflows and outflows, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain amounts in the comparative totals columns of the financial statements have been reclassified to conform with the current year presentation.

MINNESOTA HOUSING FINANCE AGENCY

Notes to Financial Statements

Year ended June 30, 2015 (continued)

Summary of Significant Accounting Policies (continued)

Income Taxes

The Agency, as a component unit of the State of Minnesota, is exempt from federal and state income taxes. Accordingly, no provision for income taxes is necessary.

Rebatable Arbitrage

Arbitrage earnings that are owed to the United States Treasury are recorded in Accounts Payable and based on estimated calculations performed by an independent calculation specialist on an ongoing basis. Also included in this category is yield compliance liability.

Permitted Agency investments include government obligations, commercial paper, repurchase agreements, money market funds, guaranteed investment contracts (i.e., investment agreements), the State investment pool, corporate obligations, municipal bonds and other investments consistent with requirements of safety and liquidity that comply with applicable provisions of the bond resolutions, state law and Board policy.

Cash, Cash Equivalents and Investment Securities

Cash and Cash Equivalents are generally stated at cost, which approximates fair value. The balances were composed of the following at June 30, 2015 (in thousands):

Cash and Cash Equivalents

| Funds | Deposits | Money Market Funds | State Investment Pool | Investment Agreements | Combined Totals |
|-------------------------------|----------------|--------------------|-----------------------|-----------------------|------------------|
| General Reserve Account | \$ - | \$ - | \$52,772 | \$ - | \$ 52,772 |
| Rental Housing | - | 22,431 | - | - | 22,431 |
| Residential Housing Finance | 2,250 | 162,916 | - | 6,448 | 171,614 |
| Homeownership Finance Bonds | - | 34,293 | - | - | 34,293 |
| Multifamily Housing Bonds | - | 1,253 | - | - | 1,253 |

| State Appropriated Accounts | 150 | 49,995 | 46,674 | - | 96,819 |
| Federal Appropriated Accounts | 682 | 3,573 | 1 | - | 4,256 |
| Combined Totals | <u>\$3,082</u> | <u>\$274,461</u> | <u>\$99,447</u> | <u>\$6,448</u> | <u>\$383,438</u> |

Deposits were cash awaiting investment, consisting of interest earned on investments received too late on the last day of the fiscal year to be invested and loan servicer deposits in transit.

The State investment pool is an internal investment pool managed by the Minnesota State Board of Investment (SBI). The SBI invests in debt securities, including U.S. treasury securities, U.S. agency securities, bankers' acceptances, high grade corporates, and commercial paper. This investment pool is unrated.

Generally, investment agreements are uncollateralized, interest-bearing contracts with financial institutions or corporations with variable liquidity features, which require a one-day to two-week notice for deposits and/or withdrawals, and are invested in accordance with the restrictions specified in the various bond resolutions.

Investment securities (comprising U.S. Treasury securities, U.S. Agency securities, mortgage-backed securities and municipal bonds) are recorded at fair market value and were allocated to the following funds at June 30, 2015 (in thousands):

| Combined Totals | <u>\$256,433</u> | <u>\$1,106,749</u> | <u>\$41,070</u> | <u>\$1,404,252</u> |

U.S. Treasury securities, U.S. Agency securities, and municipal bonds in General Reserve, State Appropriated and Federal Appropriated are held by the Agency's agent in the name of the State of Minnesota. U.S. treasury and U.S. agency securities in the remainder of the funds are held by the trustees under the Agency's bond resolutions in the Agency's name.

Investment securities are subject to credit risk. The following table classifies investment securities, except U.S. Treasuries, by their lowest Standard & Poor's/Moody's rating. Investment securities' credit rating categories (without qualifiers) at June 30, 2015 were (in thousands):

Credit Ratings of Investment Securities

| Type | Par Value | AA+/Aaa | AA/Aa2 |
|--------------------|--------------------|--------------------|-----------------|
| U.S. Agencies | \$1,305,850 | \$1,305,850 | \$ - |
| Municipal Bonds | 34,165 | - | 34,165 |
| Agency-wide Totals | <u>\$1,340,015</u> | <u>\$1,305,850</u> | <u>\$34,165</u> |
| U.S. Treasuries | 10,683 | | |
| Agency-wide Totals | <u>\$1,350,698</u> | | |

Examining the weighted average maturities of the Agency's investment securities can reveal information about interest rate risk. Cash, Cash Equivalents and Investment Securities (excluding unrealized appreciation of \$41.070 million and net discounts of \$12.484 million), along with the weighted average maturities (in years) as of June 30, 2015, consisted of the following (in thousands):

MINNESOTA HOUSING FINANCE AGENCY

Notes to Financial Statements

Year ended June 30, 2015 (continued)

Cash, Cash Equivalents and Investment Securities (continued)

Investments in any one issuer, excluding \$933 million of investments issued or explicitly guaranteed by the U.S. Government, that represent five percent or more of the par value of total investments, as defined by GASB Statement No. 40, as of June 30, 2015 were as follows (in thousands):

| Investment Issuer | Amount |
|--|-----------|
| Federal National Mortgage Association, U.S. Agencies | \$305,874 |

The Agency maintained certain deposits and investments throughout fiscal year 2015 that were subject to custodial credit risk. As of June 30, 2015, the amounts subject to this risk consisted of the following (in thousands):

| | Amount |
|--|--------------------|
| Deposits not covered by depository insurance and uncollateralized (including \$274,461 in a money market fund and \$99,447 in the State investment pool) | \$ 376,990 |
| Investment securities uninsured, uncollateralized and not held in the Agency's name | 1,342,723 |
| Agency-wide Total | \$1,719,713 |

Net realized loss on sale of investment securities of \$0.368 million is included in interest earned on investments.

Certain balances are required to be maintained under the various bond resolutions. These balances represent debt service and insurance reserves. The required balances at June 30, 2015 were as follows (in thousands)

| Funds | Amount |
|-----------------------------|-----------------|
| Rental Housing | \$ 2,586 |
| Residential Housing Finance | 33,121 |
| Multifamily Housing | 488 |
| Combined Totals | \$36,195 |

Loans Receivable, Net

Loans receivable, net at June 30, 2015 consisted of (in thousands):

| Funds | Outstanding Principal | Allowance for Loan Losses | Loans Receivable, Net |
|-----------------------------|-----------------------|---------------------------|-----------------------|
| General Reserve | \$ - | \$ - | \$ - |
| Rental Housing | 148,339 | (3,981) | 144,358 |
| Residential Housing Finance | 1,165,173 | (12,090) | 1,153,083 |
| Multifamily Housing | 14,546 | (73) | 14,473 |
| State Appropriated | 37,646 | (1,035) | 36,611 |
| Federal Appropriated | - | - | - |
| Agency-wide Totals | \$1,365,704 | \$(17,179) | \$1,348,525 |

Substantially all loans in the table above are secured by first or second mortgages on the real property financed. A significant portion of the homeownership first mortgage loans in the Residential Housing Finance fund have either FHA insurance or a VA or RD guarantee. Insurance reduces, but does not eliminate, loan losses.

In addition to the loans in the table above, certain loans are carried at below-market interest rates and repayment is deferred for up to 30 years. These loans are generally in either a second or more subordinate mortgage position or may be unsecured. Given the nature of these loans and the risk associated with them, at the time of origination they are fully reserved resulting in a net carrying value of zero. The principal

MINNESOTA HOUSING FINANCE AGENCY

(continued)**

amount of loans with such characteristics originated during fiscal year 2015 aggregated \$3.262 million in the Residential Housing Finance Housing Affordability Fund (Pool 3) and \$26.584 million in State Appropriated. Loans with net carrying values of zero are excluded from the tables above and below.

Loans receivable, net and gross in Residential Housing Finance at June 30, 2015 consist of a variety of loans as follows (in thousands):

| Description | Net Outstanding Amount | Gross Outstanding Amount |
|--|------------------------------|--------------------------------|
| Residential Housing Finance Bonds: | | |
| Homeownership, first mortgage loans | \$ 812,140 | \$ 819,067 |
| Other homeownership loans, generally secured by a second mortgage | 1,262 | 1,308 |
| Alternative Loan Fund, Housing Investment Fund (Pool 2): | | |
| Home Improvement loans, generally secured by a second mortgage | 82,471 | 83,751 |
| Homeownership, first mortgage loans | 43,578 | 44,043 |
| Other homeownership loans, generally secured by a second mortgage | 15,497 | 15,976 |
| Multifamily, first mortgage loans | 158,825 | 160,226 |
| Alternative Loan Fund, Housing Affordability Fund (Pool 3): | | |
| Other homeownership loans, generally secured by a second mortgage | 35,749 | 37,241 |
| Multifamily, other | 3,561 | 3,561 |
| Residential Housing Finance Totals | <u>\$1,153,083</u> | <u>\$1,165,173</u> |

The Agency is limited by statute to financing real estate located within the State of Minnesota. Collectability depends on, among other things, local economic conditions.

Other Assets

Other assets, including receivables, at June 30, 2015 consisted of the following (in thousands):

| Funds | Receivables Due from the Federal Government | Other Assets and Receivables | Total |
|-----------------------------|---|---------------------------------|----------------|
| General Reserve Account | \$1,208 | \$ 4 | \$1,212 |

**Bonds Payable
(continued)**

The Agency uses special redemption provisions to retire certain bonds prior to their stated maturity from unexpended bond proceeds and revenues in excess of scheduled debt service resulting primarily from loan prepayments.

Substantially all bonds are subject to optional redemption after various dates at an amount equal to 100% of the unpaid principal and accrued interest as set forth in the applicable series resolution. Annual debt service requirements to maturity for bonds outstanding as of June 30, 2015, are as follows (in thousands):

| Fiscal Year | Rental Housing | | Residential Housing Finance | |

Residential Housing Finance Bonds 2003 Series B and J; 2004 Series G; 2006 Series C; 2007 Series E (Taxable), J (Taxable), S and T (Taxable); 2008 Series C; and 2009 Series C and F accrue interest at rates that change weekly as determined by a remarketing agent for such series based on market conditions. Future interest due for these bonds, as displayed above in the annual debt service requirements table, assumes that the respective rates in effect on June 30, 2015 continue for the term of the bonds. Variable rate bond interest payments will vary as general short-term interest rates vary. Associated interest rate swaps are not included in the annual debt service requirements table. See the Swap Payments and Associated Debt table below to view those amounts.

The income and assets of each of the bond funds, except for the HOMESSM fund, are pledged on a parity basis for the payment of principal and interest on the bonds issued, and to be issued, under the respective resolutions. All but one of the bond resolutions contains covenants that require the Agency to maintain certain reserves. The Agency believes that as of June 30, 2015, it is in compliance with those covenants in all material respects and the assets of all funds and accounts in the bond funds equaled or exceeded the requirements as established by the respective bond resolutions.

Call notices were issued on or before June 30, 2015 for the redemption of certain bonds thereafter. See Subsequent Events.

On June 30, 2015 the Agency had in place a revolving line of credit with the Federal Home Loan Bank of Des Moines with an outstanding balance of \$0.

**Derivative
Instruments-
Interest Rate
Swaps**

The Agency has entered into certain interest rate swap agreements that are considered to be derivative instruments under Governmental Accounting Standards Board Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments* (GASB 53). A consultant was engaged by the Agency to determine the fair value of these agreements and to evaluate their effectiveness as hedges as of June 30, 2015. The fair values approximate the termination payments that would have been due had the swaps been terminated as of June 30, 2015. In accordance with GASB 53, the Agency recorded the fair value of the agreements on the statement of net position. The fair values exclude accrued interest. As of June 30, 2015, all of the Agency's interest rate swap agreements have been determined to be effective hedges, as defined by GASB 53. The fair value is displayed on the statement of net position as a liability named "Interest rate swap agreements." The inception-to-date change in fair value as of June 30, 2015 is included under deferred outflows of resources as "Deferred loss on interest rate swap agreements."

Swaps
(continued)**

Objective of Swaps

The Agency entered into interest rate swap agreements in connection with its issuance of variable rate mortgage revenue bonds under the Residential Housing Finance Bond Resolution from 2003 through 2009. Using variable-rate debt hedged with interest-rate swaps reduced the Agency's cost of capital at the time of issuance compared to using long-term fixed rate bonds and, in turn, enabled the Agency to reduce mortgage rates offered to the Agency's low- and moderate-income, first-time home buyers.

Swap Payments and Associated Debt

Using rates as of June 30, 2015, debt service requirements of the Residential Housing Finance outstanding variable rate debt and net swap payments, assuming current interest rates remain the same for their term, are as follows (in thousands). As rates vary, variable rate bond interest payments and net swap payments will vary.

| Fiscal Year | Principal | Interest | Interest Rate Swaps, Net | Total |
|--------------------|------------------|-----------------|-------------------------------------|--------------|
| 06/30/2016 | \$13,655 | \$134 | \$7,384 | \$21,173 |
| 06/30/2017 | 4,905 | 121 | 6,747 | 11,773 |
| 06/30/2018 | 1,470 | 118 | 6,345 | 7,933 |
| 06/30/2019 | 1,385 | 117 | 6,096 | 7,598 |
| 06/30/2020 | 1,645 | 115 | 5,884 | 7,644 |
| 06/30/2025 | 24,040 | 643 | 30,615 | 55,298 |
| 06/30/2030 | 53,210 | 510 | 22,586 | 76,306 |
| 06/30/2035 | 81,600 | 263 | 11,236 | 93,099 |
| 06/30/2040 | 8,770 | 54 | 1,581 | 10,405 |
| 06/30/2045 | 5,995 | 14 | 397 | 6,406 |

Terms of Swaps

Terms of the swaps, the fair values, changes in fair values, and the credit ratings of the two counterparties thereto as of June 30, 2015, are contained in the two tables below (in thousands). All swaps are pay-fixed, receive-variable. Initial swap notional amounts matched original principal amounts of the associated debt. The Agency's swap agreements contain scheduled reductions to outstanding notional amounts that are expected to approximate scheduled or anticipated reductions in outstanding principal amounts of the associated bond series. With respect to the outstanding swaps (except for the 2009 F swap), the Agency has also purchased the right, generally based upon a 300% PSA prepayment rate (The Standard Prepayment Model of The Securities Industry and Financial Markets Association and formerly the Public Securities Association) on the underlying mortgage loans, to further reduce the notional balances of the swaps as necessary to match the outstanding principal amount of the associated bond series and, except for the 2003B, 2003J, 2004G, and 2009F swaps, the right to terminate the swaps at par at approximately the 10-year anniversary date of the swap. The Agency also has the right to terminate outstanding swaps in whole or in part at fair value at any time if it is not in default thereunder.

Termination Risk

The swap contracts may be terminated by either party if the other party fails to perform under the terms of the contract or upon certain termination events. Upon termination at market, a payment is due by one party based upon the fair value of the swap even if the payment is owed to a defaulting party. The potential termination risks to the Agency are the liability for a termination payment to the counterparty or the inability to replace the swap upon favorable financial terms, in which event the variable rate bonds would no longer be hedged. To reduce the risk of termination, swap contracts generally limit counterparty terminations to the following Agency actions or events: payment default, other defaults that remain uncured for 30 days after notice, substantial impairment of credit ratings, bankruptcy and insolvency.

Credit Risk

A swap potentially exposes the Agency to credit risk with the counterparty. The fair value of a swap represents the Agency's current potential credit exposure to the swap counterparty assuming the occurrence of a termination event. As of June 30, 2015, the Agency did not have a net credit risk exposure to any of

Derivative Instruments- Interest Rate Swaps (continued)

its three counterparties because their respective combined swap positions had a negative net fair value, as set forth in the foregoing tables. Each of the swap agreements requires that, upon demand, a party post collateral to secure its obligation to make a termination payment to the extent the fair value exceeds a collateral threshold specified in the agreement. The collateral threshold for each counterparty and the Agency is \$50 million if the ratings on the unsubordinated, unsecured long-term indebtedness of the counterparty, in the case of the counterparty, or the hedged bonds, in the case of the Agency, are not less than “AA-“ and “Aa3” from Standard & Poor’s and Moody’s, respectively, \$5 million if the ratings are not less than “A+” and “A1”, \$3 million if the ratings are not less than “A” and “A2”, and \$0, if either rating is lower. These bilateral requirements are established to mitigate potential credit risk exposure. As of June 30, 2015, neither the Agency nor any counterparty had been required to post collateral.

Amortization Risk

The Agency is subject to amortization risk because prepayments from the mortgage loan portfolio may cause the outstanding principal amount of variable rate bonds to decline faster than the amortization of the notional amount of the swap. To ameliorate amortization risk, termination options were structured within most of the outstanding swaps to enable the Agency to manage the outstanding balances of variable rate bonds and notional swap amounts. (See *Terms of Swaps*.) Additionally, the Agency may terminate outstanding swaps in whole or in part at fair value at any time if it is not in default thereunder.

Basis Risk

The potential for basis risk exists when variable interest payments on the Agency’s bonds do not equal variable interest receipts payable by the counterparty under the associated swap. The variable rate the Agency pays on its bonds resets weekly, but the variable rate received on its swaps is based upon a specified percentage of the one-month taxable LIBOR rate or the SIFMA index rate, plus a specified spread if the swap relates to tax-exempt bonds. Basis risk will vary over time due to inter-market conditions. As of June 30, 2015, the interest rate on the Agency’s variable rate tax-exempt debt ranged from 0.05% to 0.07% per annum while the variable interest rate on the associated swaps ranged from 0.14% to 0.41% per annum. As of June 30, 2015, the interest rate on the Agency’s variable rate taxable debt was 0.15% per annum while the variable interest rate on the corresponding swaps ranged from 0.15% to 0.20% per annum. In order to reduce the cumulative effects of basis risk on the swaps relating to tax-exempt variable rate debt, the determination of the spread from one-month LIBOR payable by the counterparty under the swap was based upon a regression analysis of the long-term relationship between one-month LIBOR and the tax-exempt variable rate SIFMA index (which ordinarily would approximate the weekly variable rate on the Agency’s tax-exempt variable rate bonds).

Tax Risk

The structure of the variable interest rate payments the Agency receives from its LIBOR-based swap contracts relating to tax-exempt variable rate bonds is based upon the historical long-term relationship between taxable and tax-exempt short-term interest rates. Tax risk represents the risk that may arise due to a change in the tax code that may fundamentally alter this relationship. The Agency chose to assume this risk at the time the swaps were entered into because it was not economically favorable to transfer to the swap counterparties.

Derivative Instruments- Forward Sales Contracts

The Agency has entered into forward sales contracts for the future delivery of Ginnie Mae and Fannie Mae securities. The contracts offset the financial impact to the Agency of changes in interest rates between the time of loan reservations and the securitization and sale of such loans as Ginnie Mae or Fannie Mae securities. These contracts are considered investment derivative instruments. Therefore, the change in value is reported as unrealized gains (losses) on investments. Outstanding forward sales contracts, summarized by counterparty as of June 30, 2015, are as follows: (in thousands):

**Conduit Debt-
Obligation**

On December 21, 2005, the Agency issued tax-exempt bonds on a conduit basis to assist a Minnesota nonprofit organization in preserving assisted elderly rental housing. The proceeds of the bonds were used by the organization to refinance certain HUD Section 202 elderly housing projects. The bonds were sold on a private placement basis. As of June 30, 2015, \$27.906 million of the bonds were outstanding.

On December 12, 2014 and February 18, 2015 the Agency issued short-term tax-exempt bonds on a conduit basis to enable a nonprofit corporations to obtain Low Income Housing Tax Credit 4% credits in connection with the acquisition and rehabilitation of HUD Section 8 multifamily permanent supportive housing developments in Minnesota. As of June 30, 2015, \$35.005 million of the bonds were outstanding.

Neither the Agency, the State of Minnesota, nor any political subdivision thereof is obligated in any manner for repayment of these conduit bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

**Appropriation
Debt Obligation**

The Agency has outstanding bonds under two indentures of trust that permit capital funding for loans for permanent supportive housing for long-term homeless households, preservation of federally assisted housing and other purposes. As of June 30, 2015, \$94.420 million of bonds were outstanding. This debt is not a general obligation of the Agency and is not payable from any funds or assets of the Agency. These bonds are payable solely from the appropriations the Agency expects to receive from the State General Fund pursuant to standing appropriations to be made by the Legislature as authorized by state laws adopted in 2008 and 2012. Thus, the bonds are not recorded as a liability in the accompanying financial statements.

Accounts Payable

Accounts payable and other liabilities at June 30, 2015 consisted of the following (in thousands):

| Funds | Arbitrage Rebate Payable to the Federal Government and Yield Compliance Liability | Accrued Salaries, Compensated Absences and Employee Benefits | Other Liabilities and Accounts Payable | Total |

| Agency-wide Totals | \$- | \$- | \$35,069 | \$- | \$- | \$- | \$- | \$- | \$35,069 | |

Interfund transfers recorded in Non-operating Transfer of Assets Between Funds normally result from bond sale contributions to new debt issues in other funds, the transfer of assets to maintain the Housing Endowment Fund (Pool 1) requirement and periodic transfers from the bond funds of assets in excess of bond resolution requirements.

Net Position

Restricted by Bond Resolution

The Restricted by Bond Resolution portion of Net Position represents those funds restricted within the respective bond resolution due to the specific provisions of the bond resolutions.

Restricted by Covenant

In accordance with provisions of the respective bond resolutions, the Agency may transfer excess money from bond funds to General Reserve. The Agency has pledged to deposit in General Reserve any such funds transferred from the bond funds, except for any amounts as may be necessary to reimburse the state for money appropriated to restore a deficiency in any debt service reserve fund. The Agency further covenanted that it will use the money in General Reserve (or any such transferred funds deposited directly in the Alternative Loan Fund) only for the administration and financing of programs in accordance with the policy and purpose of Minnesota Housing's enabling legislation, including reserves for the payment of bonds and of loans made from the proceeds thereof, and will accumulate and maintain therein such a balance of funds and investments as will be sufficient for that purpose. All interfund transfers are approved by the Board of the Agency.

In order to provide financial security for the Agency's general obligation bonds, and to provide additional resources for housing loans to help meet the housing needs of low- and moderate-income Minnesota residents, the Agency's Board adopted the investment guidelines in the following table. These guidelines are periodically evaluated in consideration of changes in the economy and in the Agency's specific risk profile.

MINNESOTA HOUSING FINANCE AGENCY
Notes to Financial Statements
Year ended June 30, 2015 (continued)

**Net Position
(continued)**

The \$476.252 million restricted by covenant portion of net position is restricted by a covenant made with bondholders authorized by the Agency's enabling legislation.

The Housing Endowment Fund (Pool 1) is maintained in the Restricted by Covenant portion of Net Position of the General Reserve. The Housing Investment Fund (Pool 2) and the Housing Affordability Fund (Pool 3) are maintained in the Restricted by Covenant portion of Net Position of the Residential Housing Finance fund.

The combined net position of the General Reserve and bond funds (exclusive of Pool 3, accumulated unrealized gains/losses on investments, and realized gains/losses in sale of investments between Agency funds) is required by Board investment guidelines to be not less than the combined net position of the same funds (exclusive of cumulative unrealized gains/losses on investments) as of the immediately preceding fiscal year end. That combined net position was \$683.047 million as of June 30, 2014 and \$708.840 million as of June 30, 2015.

MINNESOTA HOUSING FINANCE AGENCY
Notes to Financial Statements
Year ended June 30, 2015 (continued)

**Net Position
(continued)**

The following table describes the restricted by covenant portion of net position, including the balances to be maintained according to the Agency's Board investment guidelines, as of June 30, 2015 (in thousands):

| | Certain Balances Maintained According to Agency's Board Guidelines | Unrealized Appreciation (Depreciation) in Fair Market Value of Investments | Total Net Position Restricted by Covenant |
|--|---|---|--|
| Net Position — Restricted By Covenant | | | |
| Housing Endowment Fund (Pool 1), General Reserve | | | |
| Pool 1 is an amount equal to 1% of gross loans outstanding (excluding Pool 3 and appropriation-funded loans) and must be invested in short-term, investment-grade securities at market interest rates | \$ 12,845 | \$ - | \$ 12,845 |
| Unrealized depreciation in fair market value of investments, excluding multifamily development escrow investments | - | - | - |
| Subtotal, Housing Endowment Fund (Pool 1), General Reserve | \$ 12,845 | \$ - | \$ 12,845 |
| Housing Investment Fund (Pool 2), Residential Housing Finance | | | |
| An amount that causes the combined net position in the General Reserve and bond funds (exclusive of: Pool 3, unrealized gains/losses on investments, and realized gains/losses from the sale of investments between Agency funds) to be at least equal to the combined net position of the same funds for the immediately preceding audited fiscal year end (after restatements, if any, required by generally accepted accounting principles). During fiscal year 2015, \$10,000 was transferred from Pool 2 to Pool 3 in compliance with these Board guidelines. Pool 2 is invested in investment-quality housing loans, as defined by the Agency, or investment-grade securities. | 342,735 | - | 342,735 |
| Unrealized appreciation in fair market value of investments | - | 2,620 | 2,620 |
| Subtotal, Housing Investment Fund (Pool 2), Residential Housing Finance | 342,735 | 2,620 | 345,355 |
| Housing Affordability Fund (Pool 3), Residential Housing Finance | | | |
| Funds in excess of the combined requirement of Pool 1, Pool 2 and General Reserve may be transferred to Pool 3. Assets are invested in deferred loans, zero percent and low interest-rate loans, other loans with higher than ordinary risk factors, or, pending use, investment-grade securities. | 117,210 | - | 117,210 |
| Unrealized appreciation in fair market value of investments | - | 842 | 842 |
| Subtotal, Housing Affordability Fund (Pool 3), Residential Housing Finance | 117,210 | 842 | 118,052 |
| Agency-wide Total | \$472,790 | \$3,462 | \$476,252 |

Notes to Financial Statements

Year ended June 30, 2015 (continued)

Net Position (continued)

Restricted by Law

Undisbursed, recognized federal and state appropriations are classified as Restricted by Law under Net Position. The \$8.839 million balance of Restricted by Law in the Federal Appropriated fund as of June 30, 2015 is restricted by federal requirements that control the use of the funds. The \$119.581 million balance of Restricted by Law in the State Appropriated fund as of June 30, 2015 is restricted by the state laws appropriating such funds.

Defined Benefit Pension Plan

The Agency contributes to the Minnesota State Retirement System (the System), a multiple-employer public employee retirement system, which provides pension benefits for all permanent employees.

The State Employees Retirement Fund (SERF) is administered by the Minnesota State Retirement System (MSRS), and is established and administered in accordance with Minnesota Statutes, Chapters 352 and 356. SERF includes the General Employees Retirement Plan (General Plan), a multiple-employer, cost-sharing defined benefit plan, and three single-employer defined benefit plans: the Military Affairs Plan, the Transportation Pilots Plan, and the Fire Marshals Plan. Only certain employees of the Department of Military Affairs, the Department of Transportation, and the State Fire Marshal's Division are eligible to be members of those plans, but all state of Minnesota employees who are not members of another plan are covered by the General Plan. The Transportation Pilots Plan has been closed to new entrants since July 1, 2008.

MSRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at www.msrs.state.mn.us/financial-information; by writing to MSRS at 60 Empire Drive, #300, St. Paul, Minnesota, 55103; or by calling (651) 296-2761 or 1-800-657-5757.

Benefits Provided

MSRS provides retirement, disability, and death benefits through the State Employees Retirement Fund. Benefit provisions are established by state statute and can only be modified by the state legislature. Benefits are based on a member's age, years of credit, and the highest average salary for any sixty successive months of allowable service at termination of service. Benefit increases are provided to benefit recipients each January, and are related to the funded ratio of the plan. Annuitants receive benefit increases of 2.0 percent each year. When the fund reaches a 90 percent funded status for two consecutive years, annuitants will receive a 2.5 percent increase.

Retirement benefits can be computed using one of two methods: the Step formula and the Level formula. Members hired before July 1, 1989, may use the Step or Level formula, whichever is greater. Members hired on or after July 1, 1989, must use the Level formula. Each formula converts years and months of service to a certain percentage. Under the Step formula, members receive 1.2 percent of the high-five average salary for each of the first 10 years of covered service, plus 1.7 percent for each year thereafter. It also includes full benefits under the Rule of 90 (age plus years of allowable service equals 90). In contrast, the Level formula does not include the Rule of 90. Under the Level formula, members receive 1.7 percent of the high-five average salary for all years of covered service, and full benefits are available at normal retirement age.

Contributions

Minnesota Statutes Chapter 352 sets the rates for employer and employee contributions. Eligible General Plan members and participating employers were required to contribute 5.0 percent of their annual covered salary in fiscal year 2014. Effective July 1, 2014, member and employer rates increased to 5.5 percent of total compensation. The Agency's contribution to the General Plan for the fiscal year ending June 30, 2015 was \$.853 million. These contributions were equal to the contractually required contributions for each year as set by state statute.

Actuarial Assumptions

The Agency's net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total

MINNESOTA HOUSING FINANCE AGENCY
Notes to Financial Statements
Year ended June 30, 2015 (continued)

**Defined Benefit
Pension Plan
(continued)**

pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| | |
|------------------------------|-----------------------|
| Inflation | 2.75 percent per year |
| Active Member Payroll Growth | 3.50 percent per year |
| Investment Rate of Return | 7.90 percent |

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2000 generational mortality tables for males or females, as appropriate, with adjustments to match fund experience. Benefit increases for retirees are assumed to be 2.0 percent every January 1st through 2015 and 2.5 percent thereafter.

Actuarial assumptions used in the June 30, 2014, valuation were based on the results of actuarial experience studies for the period July 1, 2004, through June 30, 2008, with an update of economic assumptions in 2014.

The long-term expected rate of return on pension plan investments is 7.9 percent. The rate assumption was selected as the result of a 2014 actuarial review of economic assumptions. The review combined the asset class target allocations and long-term rate of return expectations from the State Board of Investment (SBI) with return expectations from eight other investment consultants. The review also factored in information from the Social Security Trustees Report, U.S. Department of the Treasury yield curve rates, and historical observations of inflation statistics and investment returns.

The SBI, which manages the investments of MSRS, prepares an analysis of the reasonableness of the long-term expected rate of return on a regular basis using a building-block method. Best-estimates of expected future real rates of return are developed for each major asset class. These asset class estimates and target allocations are combined to produce a geometric, expected long-term rate of return as summarized in the following table:

| Asset Class | Target Allocation | SBI's Long-Term Expected Real Rate of Return (Geometric Mean) |
|----------------------|--------------------------|--|
| Domestic Stocks | 45% | 5.50% |
| International Stocks | 15% | 6.00% |
| Bonds | 18% | 1.45% |
| Alternative Assets | 20% | 6.40% |
| Cash | 2% | 0.50% |

Discount Rate

The discount rate used to measure the total pension liability as of June 30, 2014, was 7.9 percent. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2014, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. A similar analysis was performed as of July 1, 2013, based on a long-term expected rate of return of 7.90 percent and a municipal bond rate of 4.63 percent. The projection showed that assets would be available to pay benefits only through 2045, with a resulting single discount rate of 6.63 percent, and an increase of 1.27 percent between the beginning and the end of the measurement period.

Net Pension Liability

At June 30, 2015, the Agency reported a liability of \$9.313 million for its proportionate share of MSRS' net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Agency's proportion of the net pension liability was based on the Agency's contributions received by MSRS during the measurement period July 1, 2013, through June 30, 2014, relative to the total employer

MINNESOTA HOUSING FINANCE AGENCY
Notes to Financial Statements
Year ended June 30, 2015 (continued)

**Defined Benefit
Pension Plan
(continued)**

contributions received from all of MSRS's participating employers. At June 30, 2014, the Agency's proportion was .7754 percent.

Two changes in benefit provisions affected the measurement of the total pension liability since the prior measurement date. Member and employer contribution rates increased from 5 percent to 5.5 percent of pay effective the first day of the first full pay period beginning after July 1, 2014. Beginning July 1, 2014, the funding ratio threshold that must be attained to pay a 2.5 percent post-retirement benefit increase to benefit recipients was changed from 90 percent for one year to 90 percent for two consecutive years.

Two changes in assumptions affected the measurement of the total pension liability since the prior measurement date. The single discount rate changed from 6.63 percent to 7.90 percent. The post-retirement benefit increase changed from 2 percent indefinitely, to 2 percent through 2015, and 2.5 percent thereafter.

Pension Liability Sensitivity

The following presents the Agency's proportionate share of the net pension liability, calculated using the discount rate disclosed above, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate (in thousands):

| | 1% Decrease in Discount Rate (6.9%) | Discount Rate (7.9%) | 1% Increase in Discount Rate (8.9%) |
|---|--|---------------------------------|--|
| Minnesota Housing's proportionate share of the net pension liability: | \$18,796 | \$9,313 | \$1,434 |

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the MSRS Comprehensive Annual Financial Report, available on the MSRS website (www.msrs.state.mn.us/financial-information).

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2015, the Agency recognized pension expense of \$1.434 million. At June 30, 2015, the Agency reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|---|--|
| Differences between expected and actual experience | \$ 202 | \$ - |
| Changes of assumptions | 6,788 | - |
| Net difference between projected and actual earnings on investments | 4,831 | - |
| Changes in proportion and differences between actual contributions and proportionate share of contributions | - | 189 |
| Contributions paid to MSRS subsequent to the measurement date | - | 853 |
| Total | \$11,821 | \$104 |

MINNESOTA HOUSING FINANCE AGENCY
Notes to Financial Statements
Year ended June 30, 2015 (continued)

**Defined Benefit
Pension Plan
(continued)**

Amounts reported as deferred outflows of resources related to pensions resulting from Agency's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows (in thousands):

| Year ended June 30: | Pension Expense Amount |
|--------------------------------|-----------------------------------|
| 2016 | \$47 |
| 2017 | 47 |
| 2018 | 47 |
| 2019 | 47 |
| 2020 | - |
| Thereafter | - |

**Post-Employment
Benefits Other
Than Pensions**

The Agency's employees participate in the State of Minnesota-sponsored hospital, medical, and dental insurance group. State statute requires that former employees and their dependents be allowed to continue participation indefinitely, under certain conditions, in the insurance that the employees participated in immediately before retirement. The former employees must pay the entire premium for continuation coverage. An implicit rate subsidy exists for the former participants that elect to continue coverage. That subsidy refers to the concept that retirees under the age of 65 (i.e. not eligible for Medicare) generate greater claims on average than active participants.

The State of Minnesota obtains an actuarial valuation from an independent firm of its postretirement medical benefits and to determine its other postemployment benefits (OPEB) liability. The state intends to fund the OPEB liability on a "pay as you go" basis. The net other postemployment benefit obligation (NOO) for the Agency is \$.213 million for fiscal year 2015. The NOO was recorded as an expense and a corresponding liability by the Agency. This is a cost sharing plan. The State of Minnesota has not prepared separate financial statements for the plan. The actuarial method used to determine the actuarial accrued liability and the annual required contribution was the entry age normal method. The assumed discount rate was 4.10% and the assumed payroll growth rate was 3.75%. Future retirees who are eligible for an implicit subsidy are assumed to elect coverage at a 50% rate. The projected annual medical claims cost trend rate is 9.13% initially, reduced by decrements to an ultimate rate of 5.0% for the year 2026 and beyond. Mortality was determined using 1983 Group Annuity Mortality Tables.

The funding status, from the report dated July 31, 2014, which is the latest available, is described in the following tables on a plan-wide basis. The Agency portion is not separately determinable. The State of Minnesota also subsidizes the healthcare and dental premium rates for certain other state agency retirees. That liability is reflected in the tables along with the implicit rate subsidy.

**Risk
Management**

Minnesota Housing is exposed to various insurable risks of loss related to tort; theft of, damage to, or destruction of assets; errors or omissions; and employer obligations. Minnesota Housing manages these risks through State of Minnesota insurance plans including the State of Minnesota Risk Management Fund (a self-insurance fund) and through purchased insurance coverage. Property, casualty, liability, and crime coverage is provided by the Minnesota Risk Management Fund which may also purchase other insurance from qualified insurers for Minnesota Housing's needs. Minnesota Housing bears a \$2,500 deductible per claim for the following coverage limits (in thousands):

| Type of Coverage | Coverage Limits |
|--|------------------------|
| Real and personal property loss | \$ 4,894 |
| Business interruption/loss of use/extra expense | 75,000 |
| Bodily injury and property damage per person | 500 |
| Bodily injury and property damage per occurrence | 1,500 |
| Faithful performance/commercial crime | 14,000 |
| Employee dishonesty | 250 |

Minnesota Housing retains the risk of loss, although there have been no settlements or actual losses in excess of coverage in the last three fiscal years.

MINNESOTA HOUSING FINANCE AGENCY

Notes to Financial Statements

Year ended June 30, 2015 (continued)

Risk Management (continued)

The Agency participates in the State Employee Group Insurance Plan, which provides life insurance and hospital, medical, and dental benefits coverage through provider organizations.

Minnesota Housing participates in the State of Minnesota Workers' Compensation Program. Annual premiums are assessed by the program based on average costs and claims. Minnesota Housing workers compensation costs and claims have been negligible during the last three fiscal years.

Commitments

As of June 30, 2015, the Agency had committed the following amounts for the purchase or origination of future loans or other housing assistance amounts (in thousands):

| Funds | Amount |
|-----------------------------|------------------|
| General Reserve Account | \$ - |
| Rental Housing | 29,246 |
| Residential Housing Finance | 309,294 |
| Homeownership Finance | - |
| Multifamily Housing | - |
| HOMES SM | - |
| State Appropriated | 90,601 |
| Federal Appropriated | 13,575 |
| Agency Wide Totals | <u>\$442,716</u> |

Board-approved selections of future loans or other housing assistance for multifamily housing projects are included in the above table. Multifamily developers frequently proceed with their projects based upon their selection by the Board and, therefore, a selection is treated like a de facto commitment although it is merely a reservation of funds. The Agency retains the unilateral discretion to cancel any reservation of funds that has not been formally and legally committed.

The Agency has cancellable lease commitments for office facilities through August 2017 and for parking through February 2016, totaling \$2.435 million. Combined office facilities and parking lease expense for fiscal year 2015 was \$1.209 million.

On June 30, 2015 the Agency had in place a revolving line of credit with the Federal Home Loan Bank of Des Moines. Draws against the line of credit are required to be collateralized with mortgage-backed securities which reside in Pool 2. As of June 30, 2015, \$53.020 million of mortgage-backed securities were pledged. The advances taken during fiscal year 2015 were used to purchase and warehouse mortgage-backed securities in Pool 2. The line of credit activity for the year ended June 30, 2015, is summarized as follows (in thousands):

| Beginning Balance | Draws | Repayments | Ending Balance |
|--------------------------|--------------|-------------------|-----------------------|
| \$ - | \$496,000 | \$496,000 | \$ - |

The Agency is a party to various litigations arising in the ordinary course of business. While the ultimate effect of such actions cannot be predicted with certainty, the Agency expects that the outcome of these matters will not result in a material adverse effect on the financial position or results of operations of the Agency.

MINNESOTA HOUSING FINANCE AGENCY
Notes to Financial Statements
Year ended June 30, 2015 (continued)

**Subsequent
Events**

The Agency called for redemption subsequent to June 30, 2015 the following bonds (in thousands):

| Program | Retirement Date | Par |
|-----------------------------|------------------------|------------|
| Homeownership Finance | July 1, 2015 | \$ 3,815 |
| Residential Housing Finance | July 1, 2015 | 37,020 |
| Homeownership Finance | August 1, 2015 | 1,470 |
| Residential Housing Finance | August 1, 2015 | 2,410 |
| Rental Housing | August 1, 2015 | 6,130 |
| Homeownership Finance | September 1, 2015 | 2,660 |
| Residential Housing Finance | September 1, 2015 | 4,330 |
| Residential Housing Finance | August 26, 2015 | 18,225 |
| Residential Housing Finance | September 15, 2015 | 44,545 |

On June 25, 2015, the Board of the Agency adopted a series resolution authorizing the issuance of RHFB 2015 Series A, B and C and on July 23, 2015, authorized the issuance of RHFB 2015 Series D, for the purpose of providing funds for certain of the Agency's homeownership programs. The Residential Housing Finance Bonds, RHFB 2015 Series A, B, C and D, in the principal amount of \$124.6 million and were delivered on August 11, 2015.

On May 28, 2015, the Board of the Agency adopted a series resolution authorizing the issuance of RH 2015 Series A, for the purpose of providing funds for certain of the Agency's multi-family programs. The Rental Housing Bonds, RH 2015 Series A, in the principal amount of \$6.620 million and were delivered on July 30, 2015.
