

The 2023 CoC priorities will be posted on Minnesota Housing’s website in summer 2021. These priorities were determined and approved by each CoC governing body. The CoC is required to invite broad community input, including tribal representatives if the CoC region includes tribal land, and must broadly advertise the meeting to vote on the priority. The CoC must use the most recent, reliable local data and needs assessment to determine the priority. Recommended methodology is to use the local Point in Time data (PIT), Housing Inventory Chart (HIC), and coordinated entry waitlist data. Local housing studies may also be used. The Minnesota Interagency Council on Homelessness implementation team verifies that the prioritization process is valid.

**2021 RFP/2022 HTC Priority Household Type Options:** Single Adults, Families with Children, Youth –Singles, Youth with Children (Youth are defined as age 24 and younger)
