Minnesota Housing’s Capacity Building Program, authorized under Minnesota Statute 462A.07, subd. 2, will fund activities that build capacity of organizations and communities to address root causes of housing challenges and create thriving and inclusive communities. Communities Most Impacted (see definition below) by housing challenges and disparities are experts and key partners in developing solutions to these challenges. Minnesota Housing trusts organizations and communities to use their knowledge and creativity to develop strategies that work for them.

The Capacity Building Program is an important tool for advancing Minnesota Housing’s 2020-2022 strategic objectives of “Creating an Equitable and Inclusive Housing System” and “Strengthening Communities” by:

- “Strengthening Disinvested Communities” including:
  - Fostering the co-creation of solutions with communities
  - Addressing systemic barriers
  - Diversifying the partners we fund and with whom we work
  - Bolstering cross-sector community development work
- Supporting Tribal Nations and Indigenous communities:
  - Increasing Tribal access to program resources
  - Supporting tribes in building their program capacity

Over the course of a two-year grant period, selected grantees will utilize Capacity Building Program grant funds for one of the following two uses:

1. **Organizational Capacity Building:** Grantee will use the funds to build its own capacity to address root causes of housing challenges and housing disparities, build power in Communities Most Impacted by housing challenges and disparities, pilot innovative solutions to housing challenges, and support inclusive and equitable communities.

2. **Intermediary Capacity Building:** Grantee will use the funds to build the capacity of others through pass-through grants and/or technical assistance (see definition of both terms below) in the Grantee’s area of experience and expertise. The purpose of intermediary capacity building is to develop and strengthen the capacity of communities, stakeholders, and organizations operating in the areas of housing planning, community and program development, and community engagement. Funds are intended to support efforts to build the capacity of communities, and/or organizations to meet community housing goals and needs. Funding should be used to provide direct technical assistance and/or pass-through grants support to communities and organizations.
For the 2022 Capacity Building Program, Minnesota Housing may, but is not obligated to, award grant funds in an aggregate amount of up to $1,450,000. As described below, approximately $950,000 of the grant funds will be allocated to Organizational Capacity Building grantees, and approximately $500,000 of the grant funds will be allocated to Intermediary Capacity Building grantees. Minnesota Housing anticipates that between 17 to 32 Organizational Capacity Building grantees will be selected and between 6 to 15 Intermediary Capacity Building grantees will be selected. Award sizes and the amounts recommended between the two different uses will depend on a number of factors including the number of applications received, scoring, and geographic coverage.

Applicants must choose only one (not both) of the two uses for a two-year grant period. Applicants will be scored and evaluated against other applications applying for the same use. Organizational Capacity Building applicants do not compete with Intermediary Capacity Building applicants.

1. **Organizational Capacity Building:**
   - Estimated Available Funds: $950,000 (subject to applications received)
   - Maximum Individual Award: $55,000 (typical award size may range from $20,000 to $55,000)

2. **Intermediary Capacity Building:**
   - Estimated Available Funds: $500,000 (subject to applications received)
   - Maximum Individual Award: $75,000 (typical award size may range from $30,000 to $75,000). Pass-through grants awarded to sub-grantees must be less than $25,000.

It is the policy of Minnesota Housing to ensure fairness, precision, equity and consistency in competitive grant awards. This includes implementing diversity and inclusion in grant-making. The 2022 Capacity Building Program grant will serve Communities Most Impacted by housing challenges and disparities including Black, Indigenous, and People of Color, people with disabilities, seniors, and people facing barriers to housing. In addition to other outcomes identified by the applicant, grant outcomes will include 1.) a benefit for Communities Most Impacted such as removing barriers to housing challenges or supporting their leadership and self-advocacy in the housing arena and 2) advancing one or more of the strategic priorities identified above and make progress towards removing root causes of housing challenges and disparities for the community(ies) identified in the application.

What criteria will proposals be reviewed for?

Submitted applications are considered final, and late and incomplete applications will not be considered. Minnesota Housing may request additional information or clarification from applicants who submit timely, complete applications. The applicant will be responsible for all costs incurred in applying for this Request for Proposals (RFP).

This is a competitive application process that consists of the following steps below. Please note that Organizational Capacity Building applicants will be considered separately from Intermediary Capacity Building applicants at each step of the process:

1. Applications are reviewed, discussed by the selection committee and scores are assigned. If necessary, Minnesota Housing staff may send clarifying questions for applicants. Finalists are selected for interviews.
2. Interview committee interviews finalists in a scored interview process.
3. Selection committee reviews and evaluates application scores and interview scores to develop a list of recommended grantees.
4. Pending internal approval by Minnesota Housing leadership, the list of recommended grantees will be submitted to the Minnesota Housing Finance Agency Board for final approval.

Applications will be reviewed and scored by a selection committee comprised of Minnesota Housing staff and potentially community reviewers with topic and/or regional knowledge. The applicants selected for interviews are at the discretion of Minnesota Housing selection committee and will be based on the strength of responses in the application, and with the goal
of funding a variety of project types, communities, and geographies to be served. Interviews will be scored separately from the application. The selection committee will arrive at a final score that combines the application and interview scores.

Minnesota Housing will fund a variety of project types and will work to achieve an equitable and geographic distribution of funds across the state. Recommendations will be presented to the Minnesota Housing board for approval. The award decisions of Minnesota Housing are final and not subject to appeal.
